**INDUSTRIES, INVESTMENT PROMOTION
AND COMMERCE DEPARTMENT**

POLICY NOTE

2025-2026

INTRODUCTION

Tamil Nadu has pioneered an inclusive model of development by embracing the philosophy that opportunities and progress should reach people from all walks of life across all the regions. The State achieves this by striking a fine balance in apportioning the resources between social welfare initiatives and overall economic development. The social welfare interventions undertaken by the Government have fostered inclusive growth and the well-thought-out policies have enabled a regionally spread and sectorally diverse industrial landscape.

The initiatives of the Government have promoted social equity and an exceptional level of women's participation in the workforce - that while

the State boasts of a high overall labor force participation rate, what truly sets it apart is that it accounts for 41% of the women employed in factories across the country. The diligent focus on spreading economic growth across the State has yielded significant dividends with 50% of the State's GDP accounted for by as many as 25% of its districts - a metric which is more skewed towards fewer districts in peer and competing States. Furthermore, this has also resulted in the emergence of a number of tier-2 and 3 cities such as Coimbatore, Tiruchirappalli, Hosur, Madurai, Salem and Thoothukudi as regional economic powerhouses.

The combination of the overarching Tamil Nadu Industrial Policy 2021, and the various path-breaking sectoral policies designed to meet the unique needs of key and emerging industrial sectors, has aided the State to successfully draw strategic investments across a wide range of

industries. True to its unique development model, Tamil Nadu has pursued a diversified industrial growth strategy. The State excels in technology-intensive sectors such as hi-tech manufacturing, Global Capabilities Centres (GCCs), electric vehicle manufacturing, while also achieving high growth in labor-intensive sectors such as electronics, footwear and textiles. This has ensured meaningful and aspirational employment opportunities for people from various educational backgrounds and skill sets.

Recognizing the need to ensure the availability of a skilled workforce, the State strives to strengthen its human capital. Initiatives such as 'Naan Mudhalvan' - the upskilling platform operated by the Government enable participants in the workforce to acquire in-demand technical skills. The State also takes measures to help companies recruit industry-ready workforce. Tamil Nadu is committed to future-proofing its workforce by

skilling, upskilling, and reskilling graduates and job seeking youth in the areas of high-value and high-volume employment. By forging strategic partnerships between industry, academia, and Government, the State aims to build a robust ecosystem that enables workforce development in niche and emerging technologies.

The State has invested significantly in creating robust infrastructure, especially in the areas of industrial parks, logistics, road connectivity, seamless supply of water and power to industries. In line with the State's vision of achieving balanced regional growth, 37 of the 38 districts in the State already have an industrial park or have one under development. Road connectivity, particularly access roads to industrial parks is being improved in collaboration with the Highways Department under the Comprehensive Road Infrastructure Development Programme (CRIDP). Tamil Nadu Water Supply and Drainage

Board (TWAD) supplies water to industries and industrial parks, while treated water is provided for specific process needs. Currently, Tertiary Treated Reverse Osmosis (TTRO) water is made available to industries in and around Chennai by the Chennai Metropolitan Water Supply and Sewerage Board (CMWSSB) Plant in Koyambedu. Reliable power infrastructure and consistent power supply are crucial for successful industrial operations. Tamil Nadu Power Distribution Corporation Limited (TNPDC) is focused on enhancing power infrastructure and ensuring uninterrupted power supply to industries. Further to support the industries in achieving their Sustainable Development Goals (SDGs), Tamil Nadu continues to augment its installed renewable energy capacity with the current installed capacity standing at 58% of total.

To enable ease of doing business by transparent governance, the Tamil Nadu Single

Window Portal offers more than 190 Government-to-business offerings covering various State agencies, providing a seamless and hassle-free experience to investors seeking business-related licenses, approvals, and NOCs. The policies of the Government and strategic interventions have paved the way for accelerated industrial growth in the State.

Industrial Sector – performance and achievements

Tamil Nadu is home to 31,517 operational factories – the highest in India – which is a testament to both the State’s conducive business environment and the quality and stability of its workforce. Further, the fact that the closest peer State has just 20,739 operational factories emphasizes the competitive advantage that Tamil Nadu offers to its investors.

Table 1
Industrial Ecosystem of major states in India

State	Operating Factories	Total Persons Engaged	Operational Factories with >5000 employees	Operational Factories with >1000 employees
	(Nos.)	(Nos. in lakh)	(Nos.)	(Nos.)
TN's Rank	1	1	1	1
Tamil Nadu	31,517	27.74	255	1576
Maharashtra	20,739	23.74	48	648
Gujarat	24,811	23.34	57	629
Karnataka	11,391	12.16	151	629
Uttar Pradesh	16,263	14.86	26	324
Haryana	7,935	11.00	24	277
Odisha	2,835	3.30	19	72
Rajasthan	9,567	7.00	24	151
Andhra Pradesh	12,247	6.95	21	203

Source: Annual Survey of Industries 2022-23

Tamil Nadu's stellar performance in the manufacturing sector continued to be impressive in 2023-24, contributing to 11.80% of India's manufacturing GVA. Within the State, the manufacturing sector has contributed to generate a GVA of 18.57%.

The Gross Fixed Capital Formation (GFCF), which throws light on investment in new machinery and assets for production, stood at Rs.60,637 crore

in 2022-23, capturing approximately 10% share of India's total GFCF. In keeping with the strategy of building a diverse industrial base, Tamil Nadu has continued to attract and ground a broad range of industries in 2024-25, including automobile OEMs and auto components, electronics, global capability centers, semiconductor chip designing and equipment manufacturing, technical textiles, non-leather footwear, food processing and others. From May 2021 to March 2025, the State's investment promotion efforts have resulted in investment commitments worth Rs.10,14,368 crore and employment commitments amounting to 32,04,895 direct and indirect jobs. Notable investments have been made in southern and hitherto industrial backward districts of the State including the investments in the first Green Hydrogen plant by Sembcorp, and an EV manufacturing plant by Vinfast Auto in Thoothukudi District and an export-oriented

footwear manufacturing facility by Dean Shoes in Ariyalur District.

The IT and GCC sector in the State has grown by over 69% between 2019 and 2024, with over 125 new GCCs opening in Chennai during this period, creating an additional employee headcount of 94,121. Of these 125 new GCCs, 60 were established in 2023-2024, the highest for any city in India, indicating progressive traction. While Chennai leads the State in GCCs with over 300 facilities operated by leading companies such as Adidas, Boeing, Mizuho, Pfizer, Qualcomm, Standard Chartered, UPS and Visteon, Coimbatore and Madurai have emerged as emerging destinations for GCCs, with marquee companies such as Access Healthcare, Bosch, Bradken, Deloitte, Ernst and Young, Honeywell, Mahle, Morgan Stanley Capital International, Schlumberger, and State Street establishing their GCC operations in these cities. This sector has

grown in Tamil Nadu on account of the State's well-qualified and technically strong workforce, advanced infrastructure, favorable cost-to-value ratio and favorable policy support. Furthermore, the upcoming TIDEL Parks in Madurai and Tiruchirapalli, the mini-TIDEL Parks established in Thanjavur, Thoothukudi, Villupuram and Salem and those being constructed in Tiruppur, Vellore and Karaikudi provide further impetus for the emergence of IT & GCC ecosystems across the State including tier 2 towns.

Table 2
Top Sectors of Tamil Nadu

Sector	TN's rank	Total Output (Rs. in lakh crore)	Total Output (% of India)
Motor Vehicles, Trailers and Semi-Trailers	1	2.69	23.78
Wearing Apparel	1	0.69	30.97
Leather and related products	1	0.2	26.62
Computer, electronic and optical products	2	1.14	26.34
Machinery and Equipment	2	1.16	17.66

Textiles	2	1.34	23.73
Other Transport Equipment	2	0.42	14.6
Printing and reproduction of recorded media	3	0.04	10.26
Rubber and Plastics	3	0.58	10.99
Other Non-Metallic mineral products	4	0.37	7.98

Source: Annual Survey of Industries, 2022-23

With exports worth over US\$ 46.5 Billion, Tamil Nadu is one of the top exporting States in the country. Among the top four states in exports, Tamil Nadu is the only State whose exports have continuously grown in value since 2021-22. The State has a diverse portfolio of exports, comprising electronics, footwear, auto components and textiles amongst others. With a share of 37.09% of India's electronics exports, Tamil Nadu is currently India's largest exporter of electronics, with manufacturing and R&D capabilities in electromechanical components, power electronics, PCB assemblies, display and camera equipment and other critical components. The State ranks first

in the Export Preparedness Index 2022 prepared by the NITI Aayog. This underscores the strength of its export promotion policies, institutional framework, export infrastructure and trade support facilities.

With the diversification and disaggregation of supply chains, there arises a need for a resilient economy. In order to ensure resilience to shocks and disruptions, Tamil Nadu is focused on localizing its supply chains. Furthermore, the State is also focused on instituting circularity-centric policy measures to ensure future compliance with Carbon Border Adjustment Mechanism (CBAM) and other potential regulatory requirements that Tamil Nadu-based exporters may face.

With the benefits conferred by these growth factors, Tamil Nadu is well-placed to play a strong and strategic role in global value chains, enabling global firms to optimize operations and enhance efficiency through advanced, yet cost-effective,

manufacturing and R&D facilities. Our State is well on its path to achieving a \$1 Trillion economy, powered by inclusive development, sustainability and a strong focus on value creation.

1. GUIDANCE

Guidance, established in 1992, is one of the earliest investment promotion agency in the country. Steering industrialization in the State for over three decades. True to its mandate the organization has dynamically seized investment opportunities across the value chain - from employment intensive sectors to those generating high value jobs. Equipped to handle the entire spectrum of investment promotion activities, Guidance specializes in lead generation, project facilitation, and post-investment services. The scope of work also includes formulating new policies, fostering industry-academia collaboration, and engaging with trade organizations and multilateral agencies. Guidance remains committed to realizing the vision of the Government of which is promoting balanced regional growth and providing meaningful job opportunities for its aspiring population.

As the nodal agency for investment promotion, Guidance structures and recommends incentives for enterprises in accordance with the Tamil Nadu Industrial Policy 2021 and other sector-specific policies. It is also responsible for drafting new sector-specific policies aligned with emerging market trends and global developments.

Guidance, empowered under the Tamil Nadu Business Facilitation Act 2018, provides support to prospective investors by operating and managing the single-window portal for clearances and approvals. It continuously strives to enhance the ease of doing business by simplifying procedures and reducing compliance burdens in coordination with other departments.

Guidance strengthens the State's investment ecosystem in developing an industry-ready workforce through skilling and reskilling initiatives by working with Tamil Nadu Skill Development Corporation and other skilling agencies, industries

and academia. Its external engagement arm promotes investment by fostering new partnerships and maintaining ongoing engagements through outreach events and roadshows.

1.1 Investment Promotion

The Government's dedicated efforts in drawing strategic investments to the State have led to the signing of MoUs with 895 investors, including several global companies, drawing an investment commitment of Rs.10,14,368 crore within a span of just 4 years from May 2021 to March 2025. Global Investors Meet 2024 which showcased the State's industrial prowess and talented workforce, witnessed the signing of 631 MoUs with investment and employment commitment of Rs.6.64 lakh crore and 26.91 lakh direct and indirect jobs. The year 2024-25 continued to draw investments from diverse sectors. Projects with significant investments have been committed by leading

business houses across the State, such as Tata Motors (Ranipet District), Dean Shoes (Ariyalur District), Lincoln Electric (Chengalpattu District), Brakes India (Krishnagiri District), Dabur (Viluppuram District), Yield Engineering Systems (Coimbatore District), Microchip (Chengalpattu District) and Jabil (Tiruchirappalli District). Guidance has also focused its attention on grounding these projects so that the associated economic and social benefits to the State can be reaped.

1.1.1 Investment Roadshows and Conclaves

Guidance undertakes roadshows, and participates in investment conclaves, in key Indian and international markets. This is done with a view to showcasing the industrial ecosystem of the State and acquaint potential investors with the opportunities available in Tamil Nadu.

The Hon'ble Chief Minister led a delegation to the United States of America in August-September

2024. The delegation conducted 25 meetings in Chicago and San Francisco, resulting in 19 MoUs with investment commitments worth Rs.7,616 crore and employment commitments for more than 11,000 persons. The delegation met with more than 18 Fortune 500 Companies.

Guidance also participated in several prominent trade and investment events around the world, such as the World Economic Forum - Davos, Switzerland, London Tech Week, Auto Mechanica - Germany, and the World Skills Competition - France. Delegation from Guidance also participated in notable industry events in India, such as the Bharat Mobility Expo 2025, Bharat Tex 2025, and Semicon India 2025.

At the 2025 World Economic Forum meetings in Davos, the State positioned itself as a hub for research and advanced manufacturing. The delegation held over 50 meetings, highlighting the talent pool, infrastructure, and skill development

initiatives of the State. The State drew interest from global companies in electronics, food processing, pharmaceuticals and finance. Potential collaborations were explored with the Governments of Singapore, United Arab Emirates, Finland, Saudi Arabia, and Bahrain on semiconductors, quantum computing and space-tech. The #BullishOnTN campaign, symbolizing the resilience, progress, and ambitions of the State, was launched at the World Economic Forum 2025 held in Davos, Switzerland.

1.2 Policy and Research

Guidance is responsible for formulating sector-specific policies and development of strategic roadmaps targeting investment promotion in specific areas.

Based on the global industrial landscape and as per the needs of the State, a comprehensive list of the industrial policies in force is given below.

Sl. No.	Policy
1.	Tamil Nadu Electronics Hardware Manufacturing Policy 2020
2.	Tamil Nadu Export Promotion Strategy 2021
3.	Tamil Nadu Industrial Policy 2021
4.	Tamil Nadu Fintech Policy 2021
5.	Tamil Nadu Footwear & Leather Products Policy 2022
6.	Tamil Nadu Life Sciences Promotion Policy 2022
7.	Tamil Nadu R&D Policy 2022
8.	Tamil Nadu Aerospace & Defence Industrial Policy 2022
9.	Tamil Nadu Electric Vehicles Policy, 2023
10.	Special Scheme for Technical Textiles, MMF Yarn from Recycled Products, MMF Fabric & Apparel Manufacturing 2023
11.	Tamil Nadu Ethanol Blending Policy 2023
12.	Tamil Nadu Semi-Conductor and Advanced Electronics Policy 2024
13.	Special Scheme to promote Global Capability Centres (GCCs) in Tamil Nadu 2024

The Tamil Nadu Toy Manufacturing Policy is being formulated to position the State as an attractive destination for investment, innovation, and sustainable growth in the toy manufacturing

sector, fostering local employment, enhancing exports, and promoting indigenous toy industries aligned with global standards.

Guidance is collaborating with reputed organisations such as the Institute for Transportation and Development Policy (ITDP) and Council on Environment, Energy, and Water to promote adoption of Electric Vehicles and other sustainable initiatives in the State.

Guidance is currently working on a comprehensive industrial policy which will encompass support mechanisms for traditional and new age investments – including those beyond manufacturing. The focus shall be dispersion of development 'Beyond Chennai', inclusive growth and sustainability. Attractive incentives for advanced manufacturing, R&D, tourism and innovation centers shall be built into the policy.

An Industry Intelligence Cell is being created which will be the nerve centre to identify and analyze data on potential investors and their investment needs. The cell shall use advanced analytics to transform deal sourcing and capture market disruptions.

1.3 Ease of Doing Business

The Government of Tamil Nadu is committed to improving business competitiveness by improving the investment climate through digitization of the Government-to-Business (G2B) interface, judicious and effective business reforms, dissemination of information to investors and providing facilitation support.

Initiatives undertaken in 2024-25

1) Tamil Nadu Single Window Portal 2.0

Guidance has been working closely to digitize the G2B interface and processes, in coordination with line departments, to ensure a seamless business experience for investors

through the Tamil Nadu Single Window Portal (TNSWP) 2.0. This portal acts as a one stop shop for securing all business-related licenses / approvals / NOCs. 191 G2B services provided by more than 30 State agencies have been onboarded on the TNSWP. More than 67,500 applications have been received and processed through the TNSWP. In the current year, 45 G2B more services will be developed.

Department-level training programs are being conducted to provide handholding support to departments to utilize the portal effectively for issuing licenses / approvals.

The TNSWP is also supported by an active helpdesk team for resolving issues faced by applicants/ investors. All of the 4,762 help calls received from April 2024 to March 2025 have been resolved to the satisfaction of clients.

The revenue generated by the Tamil Nadu Single Window Portal has also increased from Rs.7.78 crore in 2023-24 to Rs.9.60 crore in 2024-25, bearing testament to the increased faith reposed by investors in the fully online and transparent system for securing approvals / licenses.

2) Implementation of Business Reform Action Plan (BRAP) 2024

The Business Reform Action Plan (BRAP) is an annual exercise conducted by the Department for Promotion of Industry and Internal Trade (DPIIT), Government of India. It comprises a set of business reforms to be implemented by all States. The business ecosystem of the various States will be ranked (Ease of Doing Business Ranking) based on the performance of States on the business reforms.

Guidance coordinated with more than 25 Departments and the reforms under

BRAP 2024, covering 357 Business reforms and 92 reforms related to reducing overall compliance burden have been successfully implemented. The reforms are currently being assessed by DPIIT, and the results of the exercise are awaited.

3) Strengthening Grievance Redressal

Biz Buddy is the State's dedicated industrial help desk, primarily focused on resolving issues and challenges faced by investors in a time-bound and accountable manner. Based on user feedback and to ensure continuous improvements to the system, the portal has been revamped to include additional features and grievance redressal mechanisms for both large industries and MSMEs.

4) Reducing Compliance Burden

With the objective of enhancing the regulatory environment, Guidance has

reviewed 88 Acts, rules, and codes of 11 State Departments, and identified more than 1,300 compliances that can be simplified, digitized, eliminated or decriminalized. Out of the identified compliances, more than 350 compliances have been reduced by the State Departments. Guidance in collaboration with the State Departments will continue to work on reducing the identified compliances on an ongoing basis.

1.4 Work Labs Cell

The rise of new-age industries in emerging sectors has created a growing demand for an industry-ready, skilled workforce in Tamil Nadu, aligned with the evolving needs and hiring trends of these sectors. To address this, Work Labs Cell was established in Guidance in January 2022 for fostering, facilitating, and enhancing industry-academia collaboration in cutting-edge fields such

as AI, ML, data science, and advanced manufacturing.

1.4.1 Curriculum Reform

WorkLabs has led a curriculum reform in Tamil Nadu's polytechnic and higher education institutions to bridge the skill gap in emerging sectors. A major revamp of polytechnic diploma programs was undertaken in collaboration with 45+ industries, covering disciplines like Mechanical, EEE, Civil, and Computer Science. India's first work-integrated diploma program in Smart Digital Manufacturing was launched by Tata Electronics in Hosur for 300 women students. New programs have since expanded to cover domains like Renewable Technologies, EEE, and Manufacturing Sciences through partnerships with Mando, Tata Power Solar, and Lakshmi Machine Works. Collaboration

with global institutes such as the Singapore University of Technology and Design were fostered to further enrich curriculum design in robotics and design.

1.4.2 Jobs Generation

Work Labs facilitated strategic MoUs resulting in job-oriented initiatives across sectors. Lionsbot launched an R&D facility in Chennai employing 200 professionals in robotics. Walmart's Business Analytics Incubator in Coimbatore and CoEs for Industry 4.0 setup in government colleges are developing future-ready skills for MSMEs. Through the Naan Mudhalvan program, over 200 industries - including TATA Motors, Stellantis, and Vinfast - were connected with Tamil Nadu's youth via recruitment drives and skill training. Work-integrated degree programs for existing employees are enabling upskilling within the manufacturing

ecosystem, with job-linked educational pipelines from polytechnic to graduate levels. An AI course has been introduced in partnership with Google for the benefit of Tamil Nadu State University students.

1.4.3. Special Initiatives

Work Labs is catalysing long-term institutional transformation. It has partnered with a Deep Tech Incubator - IITM Pravartak to promote entrepreneurship and innovation. The Women's Summit 2024 spotlighted gender inclusion, while partnership with the TNWeSafe initiative, supported by the World Bank, towards mobilising industries in Tamil Nadu for increasing jobs for women in the non-farming sectors. Ongoing collaborations with TIDCO, Times Higher Education - UK and Fraunhofer Institute - Germany are poised to deliver Tamil Nadu's first University Research Parks and Knowledge City.

1.5 External Engagement

Guidance plays a crucial role in promoting investment opportunities, fostering strategic partnerships, and enhancing the organization's visibility and reputation through various stakeholders - including foreign government agencies, international organisations, diplomatic missions and trade associations.

1) Tour of foreign diplomats

A familiarization tour was organized for 15 diplomats from eight countries across four southern districts - Madurai, Tirunelveli, Thoothukudi, and Kanyakumari - to highlight the region's economic potential, investment climate, and key sectors for investment.

2) Networking and Outreach

Guidance has established several new partnerships this year, including MoUs with the Ehime, Kochi, and Osaka prefectures in Japan, and delegation visits were undertaken in 2024,

including visits from the Governors of Ehime, Toyama, Vice Governor of Osaka, Assembly Speaker Osaka, Assembly Vice Speaker Kanagawa, and other top dignitaries. An interactive session was organised for the Minister of Trade and the State Minister for MSMEs, UAE with the Hon'ble Minister for Industries and industry experts from various sectors in July 2024 to understand the potential role / contribution in the Tamil Nadu. A delegation from Sweden consisting of 20+ life science companies visited Chennai in October 2024. Other delegation visits include Taiwan, Japan, Germany, UK, Singapore etc.

3) Roadshows and Events

Guidance organized and took part in multiple events and roadshows in 2024. Domestic roadshows, including the 13th Source India - ELCINA, Bharat Mobility Global Expo 2025, Umanage 2025, and Bharat Tex

2025 featured the presence and participation of Guidance. Guidance also hosted The Tamil Nadu Investment Conclave 2024, the India-Italy Business Conference, and the Infrastructure Conclave 2024, garnered widespread attention and diverse participation from industry stakeholders.

2. STATE INDUSTRIES PROMOTION CORPORATION OF TAMIL NADU LIMITED

State Industries Promotion Corporation of Tamil Nadu Limited (SIPCOT) established in 1971, is engaged in developing and managing industrial parks as well as providing other industrial infrastructure. Over 54 years, SIPCOT has created and managed 50 industrial parks, including 8 Special Economic Zones (SEZs), spanning 48,926.48 acres in 24 districts with a focus on ensuring inclusive industrial development across the State. It has facilitated grounding 3,390 industrial units, attracting Rs.1.99 lakh crore investments and generating 8.79 lakh jobs. SIPCOT is further identifying new land parcels throughout the State for creating industrial land bank.

SIPCOT develops state-of-the-art holistic infrastructure of global standards addressing the physical, digital and social needs of all

stakeholders, thereby attracting investments and serving the aspirations of entrepreneurs and employees alike. The industrial parks provide all basic infrastructure such as extensive well-integrated road system, storm water drainage system, water supply distribution networks, administrative offices and round-the-clock park surveillance systems. End-to-end digitization has now enabled seamless service experiences from land allotment to allottee management, facilitating ease of doing business through transparency and efficiency. Seamless operations are ensured by creation of a GIS-enabled database of industrial parks.

SIPCOT invests in building strong social infrastructure, recognising communities as an important pillar in the collaborative development approach to industrialisation. Industrial housing facilities, dormitories and play ground for employees create an employee friendly

environment. Creches are being established in 16 industrial parks this year to facilitate working mothers with infant children. Workers' accommodation, 24x7 CCTV surveillance, and park surveillance systems provides a safe and comfortable working environment for employees especially the women workforce.

Creating eco-friendly industrial parks in Tamil Nadu is the cornerstone of SIPCOT's vision. SIPCOT undertakes planting of saplings and other green initiatives like waste water recycling, rejuvenation of water bodies and avenue plantation contributing to eco-responsible industrialisation.

SIPCOT is developing sector-specific parks to support high-growth segments and accelerate investment in sunrise sectors. The Medical Devices Park (Oragadam), Future Mobility Park (Shoolagiri), E-vehicle Park (Manallur), Mega Footwear & Accessories Cluster (Panapakkam), Mega Food Parks (Manapparai, Tindivanam and

Theni), Electronic Manufacturing Clusters (Manallur and Pillaipakkam), International Furniture Park (Thoothukudi) and PM MITRA Park for the textile sector (Virudhunagar), create an ecosystem that promotes industrial synergy.

In 2024-2025, SIPCOT welcomed several new entrants with seamless support and facilitation, reaffirming Tamil Nadu's bullish stance on growth and industrial potential. Some of the new occupants are VSL Green Power Private Limited in Gangaikondan Industrial Park (Thirunelveli District), Freetrend Industrial India Private Limited in Jayankondam Industrial Park (Ariyalur District), Ultramarine & Pigments Limited in Manapparai Industrial Park (Thiruchirappalli District), Saint-Gobain Industries India Private Limited in Oragadam Industrial Park (Kancheepuram District), Tata Motors Limited and Grand Atlantia Panapakkam SEZ Developers Private Limited in Panapakkam Industrial Park

(Ranipet District), Bharat Innovative Glass Technologies Private Limited and Hyundai Kefico India Private Limited in Pillaipakkam Industrial Park (Kancheepuram District), Dabur India Limited in Tindivanam Food Park (Villupuram District) and Kaynes Circuits India Private Limited in Vallam Vadagal Industrial Park (Kancheepuram District).

2.1 Land cost incentive for allottees in SIPCOT parks

Plots in SIPCOT Industrial Parks are allotted at upfront 50% subsidy in 'C' category Districts and 10% back ended subsidy in 'A and B' category Districts under the Tamil Nadu Industrial Policy 2021 and other sectoral policies. These subsidies attract high-value investments and sustained economic activity in established industrial hubs and encourage industries to invest in less industrialised regions, promoting balanced economic growth across the state.

2.2 Existing Industrial Parks

SIPCOT has made a tremendous contribution to the industrial development in the State by establishing industrial parks as given below:

Sl. No.	Industrial Park	District	Total Extent (in acres)
1	Sriperumbudur - (incl. SEZ) & Mambakkam	Kancheepuram	2,374.00
2	Irungattukottai	Kancheepuram	1,844.00
3	Pillaipakkam	Kancheepuram	1,131.00
4	Oragadam – (incl. SEZ)	Kancheepuram	3,198.57
5	Oragadam Medical Devices Park including Phase II	Kancheepuram	471.86
6	Vallam Vadagal	Kancheepuram	1,456.00
7	Vallam Vadagal - Aerospace Park	Kancheepuram	234.00
8	Thirumudivakkam	Kancheepuram	87.55
9	Nemili	Kancheepuram	229.00
10	Gummidipoondi	Thiruvallur	1,478.00
11	Puduvoyal, Gummidipoondi	Thiruvallur	75.24
12	Thervoykandigai	Thiruvallur	1,127.00
13	Manallur Phase I & II	Thiruvallur	2,040.00
14	Mappedu	Thiruvallur	122.00
15	Siruseri	Chengalpattu	783.00
16	Perundurai (incl. SEZ)	Erode	2,622.63
17	Hosur	Krishnagiri	2,093.00

18	Shoolagiri	Krishnagiri	721.85
19	Shoolagiri - Future Mobility Park	Krishnagiri	300.00
20	Bargur (incl. SEZ)	Krishnagiri	1,379.00
21	Kurubarapalli	Krishnagiri	183.70
22	Ranipet (incl. SEZ)	Ranipet	1,420.71
23	Manaparai (incl. Food Park)	Thiruchirapalli	1,097.36
24	Cuddalore	Cuddalore	2,625.00
25	Nilakottai	Dindigul	387.00
26	Pudukkottai	Pudukkottai	421.00
27	Manamadurai	Sivagangai	492.00
28	Thoothukudi	Thoothukudi	1,357.00
29	Thoothukudi Furniture Park	Thoothukudi	1,130.80
30	Sillanatham	Thoothukudi	383.00
31	Vaippar	Thoothukudi	1,019.00
32	Gangaikondan Phase I (incl. SEZ)	Thirunelveli	1,991.59
33	Cheyyar	Thiruvannamalai	2,937.00
34	A. Sathanur SEZ	Kallakurichi	190.42
35	Dharapadavedu	Vellore	74.34
36	Tindivanam (incl. Food Park)	Villupuram	683.24
37	Eraiyr	Perambalur	243.49
38	Padalur Phase I	Perambalur	99.66
39	Theni (incl. Food Park)	Theni	424.10
40	Koolanaickenpatty	Coimbatore	89.87
41	Panappakkam (incl. MLFAC & SEZ)	Ranipet	1,213.44

42	Jayankondam	Ariyalur	133.79
43	Varapatti	Coimbatore	370.59
44	Adhagapadi Phase I	Dharmapuri	1,733.03
45	E.Kumaralingapuram Phase-I	Virudhunagar	1,496.39
46	Elandhaipatti	Thiruchirapalli	148.98
47	Illuppaikudi Phase I	Sivagangai	108.40
48	Gangaikondan Phase II	Thirunelveli	625.69
49	Salem Textile Park	Salem	110.53
50	Allikulam	Thoothukudi	1,967.66
TOTAL			48,926.48

Special Economic Zones (SEZ) have been established within SIPCOT industrial parks at Sriperumbudur (191.32 acres), Oragadam (182.83 acres), Perundurai (140.37 acres), Ranipet (133.76 acres), Gangaikondan (128.27 acres), Bargur (149.95 acres), A. Sathanur (182.75 acres) and Panapakkam (201.02 acres). SEZs have also been developed within SIPCOT Industrial Parks by companies like Flextronics Technologies India Private Limited in Sriperumbudur, Cheyyar SEZ Developers Private Limited in Cheyyar, Bargur and

Tindivanam, Tata Consultancy Services Limited, Syntel International Private Limited, Cognizant Technology Solutions India Private Limited and Hexaware Technologies Limited in Siruseri.

2.3 Land Bank creation

The Hon'ble Chief Minister envisions establishing 45,000 acres of industrial land banks over five years, with a special focus on industrially underdeveloped districts. In this regard, SIPCOT has identified approximately 50,000 acres of potential land. So far, under this announcement, 21 industrial parks spanning 11,630.19 acres have been successfully operationalized.

2.3.1 Upcoming Industrial Parks

As a part of the creation of an industrial land bank, acquisition of land is in progress for the following industrial parks:

Sl. No.	Industrial Park	District	Extent (in acres)
1	Maduramangalam	Kancheepuram	422.35
2	Vallapakkam	Kancheepuram	118.64
3	Manallur Phase III	Thiruvallur	2,255.74
4	Melma	Tiruvannamalai	3,174.11
5	Shoolagiri Phase II&III	Krishnagiri	1,857.83
6	Nagamangalam	Krishnagiri	1,440.90
7	Kurubarapalli Additional Lands	Krishnagiri	23.67
8	Adhagapadi Phase II	Dharmapuri	132.27
9	Gangaikondan Phase II Balance Lands	Thirunelveli	608.66
10	Namakkal	Namakkal	803.27
11	Vanduvanchery	Nagapattinam	250.00
12	Illupaikudi Phase II	Sivagangai	661.09
13	E.Kumaralingapuram Phase II	Virudhunagar	581.14
14	Agathakulam	Virudhunagar	924.53
15	Manakudi	Ramanathapuram	224.65
16	Sakkarakottai	Ramanathapuram	312.64
17	Vembur	Thoothukudi	2,769.49
18	Padalur Phase II	Perambalur	81.27
19	E.Velayuthapuram	Thoothukudi	355.16
20	Vanjinagaram Phase I	Madurai	278.26
21	Kolathupalayam	Tiruppur	57.12
Total			17,332.79

2.3.2 Lands identified for new industrial parks

As a part of creation of the industrial land bank, SIPCOT has identified the following land parcels for establishing new industrial parks:

Sl. No.	Industrial Park	District	Extent (in acres)
1	Karur	Karur	215.72
2	Adhagapadi Phase II Expansion	Dharmapuri	557.56
3	Sengipatti	Thanjavur	253.88
4	Meelavittan Phase I	Thoothukudi	190.67
5	Meelavittan Phase II	Thoothukudi	191.76
6	Magimandalam	Vellore	256.74
7	Therkuveerapandiya puram	Thoothukudi	1,088.29
8	Kazhanivasal	Sivagangai	101.93
9	Kodur	Chengalpet	248.96
10	Vadakku Silukanpatti	Thoothukudi	296.59
11	Marukalkurichi	Tirunelveli	2,260.13
12	Echur	Kancheepuram	921.58
13	Nagamangalam Expansion	Krishnagiri	1,579.77
14	Thalaivasal	Kallakurichi	455.27
15	Vellanur (ORR)	Tiruvallur	626.00

16	Vengaramperaiyur	Thiruvarur	101.38
17	Sirumathur	Perambalur	143.63
18	Thirupulivanam	Kancheepuram	803.01
19	Minnaranjanpatti	Virudhunagar	443.77
20	Ottapidaram	Thoothukudi	1,137.14
21	Mallagunda	Tirupathur	123.69
22	Parangipettai	Cuddalore	166.42
23	Karadiputhur	Tiruvallur	2,790.94
24	Kudikadu	Cuddalore	1,119.01
25	Thallakulam	Madurai	14.49
26	Vanjinagaram (Phase II)	Madurai	322.50
27	Mariyur	Ramanathapuram	750.00
28	Kovilankulam	Virudhunagar	482.70
29	Thuvakudi - Navalpattu	Thiruchirapalli	696.17
30	Cheyyur	Chengalpattu	1,189.10
Total			19,528.80

2.4 Sectoral Cluster Development

Several SIPCOT industrial parks have emerged into dynamic sectoral clusters, attracting leading global and Indian conglomerates and driving economic growth in the region.

2.4.1 Automotive Cluster - The Sriperumbudur region has emerged as a premier automotive cluster, home to industry giants like Hyundai Motors, Yamaha Motors, Eicher Motors, Renault Nissan, Daimler, Schwing Stetter and Komatsu.

2.4.2 Electronic Cluster – The Sriperumbudur region also hosts a thriving electronic cluster, featuring FIH India Developer, Flextronics Technologies, Samsung Electronics, Dell, Salcomp, Nokia Solutions and First Solar reinforcing Tamil Nadu's leadership in high-tech manufacturing. SIPCOT is in the process of establishing electronics manufacturing clusters in Pillaipakkam - Kancheepuram District and Manallur - Tiruvallur District to further strengthen this cluster.

2.4.3 General Engineering Cluster - Hosur has flourished as a general engineering hub,

attracting major players such as Ashok Leyland, Titan Industries, Terex, Inox Air Products and WEG.

2.4.4 Textile Cluster - Perundurai has emerged as a prominent textile cluster in Tamil Nadu, establishing itself as a significant hub for textile manufacturing and houses KPR Mills, Premier Polyweave, and Sri Kannapiran Mills. Further, SIPCOT is in the process of establishing textile parks in Virudhunagar District (PM MITRA Park) and Salem District.

2.4.5 Chemical Cluster - The Cuddalore Chemical Cluster has seen robust growth with the presence of Chemplast, Cuddalore Vinyls, TANFAC and Tata Chemicals.

2.4.6 Leather Cluster - Ranipet has developed into a vibrant leather cluster powered by a strong network of enterprises including Tata International Limited, BBK shoes, Ram

leathers and Potissimus Arrow Shoes Private Limited.

2.4.7 IT Cluster - Siruseri pioneered the IT revolution, hosting technology leaders like TCS, Cognizant, Hexaware Technologies and Syntel, and is now transforming into a Data Centre Hub, with key players such as NPCI, Sify Infinit Spaces, Equinix India, Nxtra Data and STT Global Data Centre.

2.4.8 Non-Leather Footwear Cluster - Non-Leather Footwear Clusters are emerging in Kallakurichi, Ariyalur, Perambalur and Ranipet on account of manufacturing units being set up by Pou Chen, Dean Shoes, Hongfu and Phoenix Kothari groups of companies.

The SIPCOT industrial parks proudly house other leading manufacturing industrial powerhouses like Saint-Gobain, Sanmina, Apollo Tyres, ATC Tyre, TP Solar, Michelin India, Mahindra

& Mahindra, Ola Electric, Britannia Industries, Vinfast Auto, Xylosuisse, OneWeb India Communications, Voltas Ltd., Dabur India Ltd., VVDN Technologies, Lucas TVS, Delta Electronics and many more.

2.5 Sector Specific Industrial Parks

SIPCOT aims to provide the benefits of economies of scale with a shared ecosystem for various stakeholders in the value chain by establishing sector-specific industrial parks for medical devices, future mobility, e-Vehicle, footwear, food processing, electronic products manufacturing, furniture and textile sectors.

2.5.1 Medical Devices Park

SIPCOT is establishing an exclusive industrial park for medical devices manufacturing to accelerate growth and innovation in this sector at a project cost of Rs.286 crore on 350 acres at Oragadam, Kancheepuram District. The infrastructure of

the park is being created at a cost of Rs.212.40 crore. Plots have already been allotted to 24 industrial units covering 56 acres. This park is also designed to provide plug & play infrastructure.

This park is one of the four approved parks of the Department of Pharmaceuticals, Government of India, for a grant of Rs.100 crore. The park comprises state-of-the-art infrastructure and Common Infrastructure Facility (CIF) for medical devices manufacturing units which includes Electromagnetic Interference (EMI) / Electromagnetic Compatibility (EMC) centre, gamma irradiation centre, calibration centre and other necessary infrastructure. A Memorandum of Understanding (MoU) was signed between SIPCOT and Board of Radiation and Isotope Technology (BRIT) in

January 2025 for the construction and operation of the gamma irradiation facility.

2.5.2 Future Mobility Park & e-Vehicle Park

SIPCOT is spearheading the development of a cutting-edge future mobility park spanning 300 acres in Shoolagiri, Krishnagiri District, with a project cost of Rs.210 crore to drive environmental sustainability and next-generation transportation solutions. Remarkable momentum has been achieved in park development. Core infrastructure, including roads, robust water supply system, and stormwater drainage network, are rapidly taking shape, reinforcing the park's commitment to innovation and growth. 102.39 acres has been allotted to 17 industrial units.

Special Infrastructure facilities such as two-lane testing track for EVs / drones/ autonomous vehicles, research & testing facility, shared storage inventory, business

centre, culture centre, health centre, childcare centre, etc., will be taken up in consultation with the stakeholders for the benefit of all the players.

Further, in order to promote new investments in the electric vehicle space, SIPCOT is establishing an e-Vehicle Park (EV Park) on 300 acres land at Manallur.

2.5.3 Mega Non-Leather Footwear and Accessories Cluster

SIPCOT is creating a mega non-leather footwear and accessories cluster on 447.21 acres land (including an SEZ area of 201 acres) at SIPCOT Industrial Park, Panapakkam. The project is being implemented at a cost of Rs.271.33 crore (excluding land cost) with a grant of Rs.125 crore from the Department for Promotion of Industry and Internal Trade (DPIIT), Government of India.

The park will have plug & play factory buildings, warehouse and logistics, admin block, HRD & training centre, R&D centre, convention centre, canteen, medical facility, customs office, hostel building and creche. The core infrastructure works including roads, water supply, sewage system and storm water drain are under progress. A land parcel of 200 acres has been allotted to Hong Fu Industrial Group, Taiwan, a major non-leather footwear manufacturer.

2.5.4 Mega Food Parks

To promote the food processing industry in the State, SIPCOT has established three Food Parks in Manapparai (138 acres), Tindivanam (158 acres) and Theni (124 acres). These Food Parks have been designated as Mega Food Parks by the Ministry of Food Processing, Government of India. Infrastructure including roads, water supply, etc., are being developed

at a cost of Rs.258 crore with financial assistance from NABARD. The Hon'ble Chief Minister inaugurated Manapparai Industrial Park including Food Park on 29.12.2022 and issued the first land allotment order. SIPCOT has so far allotted 127.24 acres for 17 units in these Food Parks.

2.5.5 Electronic Manufacturing Clusters

SIPCOT envisages to develop two Electronics Manufacturing Clusters (EMCs) one at Manallur over an extent of 474 acres and another at Pillaipakkam over an extent of 379 acres for the development of an Integrated Manufacturing Hub, at Rs 587.47 crore (excluding land cost) and Rs. 424.55 crore (excluding land cost), respectively. The Electronics Manufacturing Clusters are being established under the EMC 2.0 scheme of the Ministry of Electronics and Information Technology (MEITY), Government of India,

with a grant of Rs.293.73 crore for Manallur and Rs.212.27 crore for Pillaipakkam.

The special infrastructure in these parks includes a skill development centre, solar photovoltaic testing centre, electronic testing centre, electronic certificate lab, design centre for PCB prototyping / rapid prototyping, EMI / EMC lab, testing lab for battery and chargers, industrial housing, etc. It will also house ready-built factories / plug and play facilities, to attract major global electronics manufacturers and their suppliers.

At Pillaipakkam EMC, 325.40 acres have been allotted to six allottees, including an anchor client, FS India Solar Ventures Private Limited. Similarly at Manallur EMC, 163 acres have been allotted to two units including an anchor client, Voltas Limited.

2.5.6 International Furniture Park

SIPCOT is establishing a Furniture Park in Thoothukudi over 1,128.75 acres at a project cost of Rs.308 crore. The development will be carried out in three phases with Phase I and Phase II covering 955.66 acres and Phase III covering 173.09 acres. This park aims to set up export-oriented manufacturing units of furniture products and will attract significant foreign investments. The Hon'ble Chief Minister laid the foundation stone for the International Furniture Park on 07.03.2022. The infrastructure works are completed, and so far, 125.96 acres have been allocated to 3 industries.

2.5.7 PM MITRA Park

Tamil Nadu is a leader in textile and apparel manufacturing, contributing to over 30% of the total textile business in India. An

MoU was exchanged between the Government of India and the Government of Tamil Nadu, for the development of India's first PM MITRA Park at Virudhunagar.

SIPCOT has earmarked 1,052 acres of land for the park, which will be established as a joint venture between the Union and State Governments at an estimated project cost of Rs.2,061 crore including the grant of Rs.500 crore from the Government of India under the PM MITRA scheme. MoUs have been signed with 11 companies through Guidance and Department of Textiles, Government of Tamil Nadu and they are expected to bring in an investment of Rs.1,231 crore and create employment for about 6,315 people.

2.6 Special Initiatives

SIPCOT has expanded its scope of services and diversified its operations through several

special initiatives, in tune with the emerging requirements of industries.

2.6.1 New range of Infrastructure facilities

1) Industrial Housing

SIPCOT is making significant efforts to develop industrial housing facilities in emerging industrial clusters with the concept of 'walk to work'.

SIPCOT has established an Industrial Housing facility at Vallam-Vadagal in collaboration with Foxconn Hon Hai, to accommodate 18,720 women workers, at an estimated cost of Rs.706.50 crore. The project was funded through a grant of Rs.37.44 crore from the Government of India under the Affordable Rental Housing Complexes (ARHC) scheme and a bank loan of Rs. 498 crore. The facility was inaugurated by the Hon'ble Chief Minister on 17.08.2024.

SIPCOT has also constructed three hostels at Irungattukottai for women (330 beds), Sriperumbudur for men (400 beds), and Sriperumbudur for women (600 beds), which are operational.

SIPCOT is in the process of establishing industrial housing facilities for women at Perundurai (222 beds) at a project cost of Rs.7.91 crore and at Thoothukudi (252 beds) at a project cost of Rs.6.92 crore.

A Special Purpose Vehicle (SPV) viz., Tamil Nadu Industrial Housing Private Ltd. (TNIHPL) has been incorporated with SIPCOT, TNIFMC and TIDEL as stakeholders to provide affordable and sustainable housing facilities for industrial workers especially at SIPCOT Industrial Parks across Tamil Nadu. Currently, TNIHPL is implementing industrial housing facilities in the following SIPCOT Industrial Parks.

Sl. No	Industrial Parks	Beds Availability	Project Cost (Rs. in crore)
1	Siruseri	807 (For women)	61.39
2	Gangaikondan	870 (For women)	39.90
3	Cheygar	441 (For men)	15.77
4	Irungattukottai	801 (For men)	30.76
5	Shoolagiri	1,495 (For both men & women)	56.72

As part of its Corporate Social Responsibility (CSR) initiative, SIPCOT has also established a women's hostel at Nerupperichal village in Tiruppur District (600 beds), at Rs.8.58 crore which has been handed over to the Social Welfare Department. Also, a hostel for the benefit of socially and economically backward workers has been completed at Nerupperichal Village, Tiruppur District with 400 beds at a cost of Rs.10.36 crore.

2) Truck parking Facilities

Parking of trucks on the sides of the road is risky and can lead to accidents. Truck parking facilities has therefore been developed for the safety of both the drivers and the public and to ease traffic congestion in 14 SIPCOT Industrial Parks with a cumulative capacity for parking about 2,000 vehicles at a total cost of Rs.75.39 crore.

3) Plug and Play Facilities

Plug and Play facilities eliminate the time-consuming processes associated with building industrial spaces and the hassles associated with it for manufacturers. The order of the day is to install plant and machinery in pre-built factory spaces with all basic provisions and starting commercial operations at the earliest.

SIPCOT is establishing a Plug & Play facility at Perundurai (50,000 sqft.) at a project cost of Rs.15.34 crore to promote the fast-paced

industrial development. It is being established with a grant of Rs.6.86 crore under the Trade Infrastructure for Export Scheme (TIES) of the Ministry of Commerce and Industry, Government of India.

SIPCOT has issued Letter of Award (LoA) to the concessionaire for establishing a Plug and Play facility on 15.31 acres, at Vallam Vadagal under PPP mode. Plug & Play facilities will also be developed at Oragadam, Shoolagiri, Manallur and Panapakkam under PPP mode in the financial year 2025-26.

SIPCOT is also in the process of establishing a Ready Built Factory (RBF) at Electronic Manufacturing Cluster, Pillaipakkam. Also, Plug and Play infrastructure will be established at the PM MITRA Park, Virudhunagar under PPP mode.

4) Product Display Centre

SIPCOT is establishing a Product Display Centre at Irungattukkottai to showcase the products of the industries located at SIPCOT Industrial Parks at a cost of about Rs.5 crore.

5) Development of Playgrounds at SIPCOT Industrial Parks

Sports and games are great ways to destress and boost employee energy and productivity. Such activities will enhance interpersonal relationships, communication and team building.

Aiming to enhance worker well-being, and quality of life and thereby improving employee satisfaction and productivity, SIPCOT is developing playgrounds at Thoothukudi, Gummidipoondi and Mambakkam Industrial Parks for employees at a cost of Rs.6 crore.

6) Development of Tourism Locations

SIPCOT is foraying into investment promotion in the tourism sector. As part of this initiative, SIPCOT is identifying suitable land parcels in coordination with the Tourism Department and the Tamil Nadu Tourism Development Corporation for developing well-equipped tourist destinations along with investors in the hospitality sector.

7) Establishment of Creches

Towards enhancing and facilitating the women workforce in industries, SIPCOT has initiated the establishment of creches in 16 of its Industrial parks. For this SIPCOT has signed a Memorandum of Understanding (MoU) with FICCI Ladies Organisation (FLO), on 19.12.2024, in the presence of the Hon'ble Minister of Industries. Under this MoU, SIPCOT will develop the infrastructure for the creches,

while FLO will undertake the Operations and Maintenance (O&M).

The physical infrastructure works for the creches at 16 SIPCOT Industrial Parks viz., Bargur, Pillaipakkam, Pudukottai, Gummidipoondi, Gangaikondan, Nilakottai, Perundurai, Thervoykandigai, Cuddalore, Siruseri, Hosur, Oragadam, Vallam-Vadagal, Ranipet, Manamadurai and Thoothukudi, are under progress.

2.6.2 Sustainable Industrial Water Initiatives

1) TTRO systems for water

To address the water needs in Hosur Industrial Park and the upcoming Shoolagiri Industrial Park, SIPCOT is setting up a 20 MLD TTRO (Tertiary Treatment Reverse Osmosis) Plant at Kelavarapalli, Krishnagiri District, to treat the dam water for industrial usage at an estimated project cost of

Rs.605.07 crore. The foundation stone for the project was laid by the Hon'ble Chief Minister on 13.06.2023, and the work is under progress.

Due to insufficient water supply from Chembarambakkam Lake for five SIPCOT Industrial Parks in Sriperumbudur Industrial Corridor viz., Irugattukottai, Sriperumbudur, Oragadam, Pillaipakkam and Vallam Vadagal, the Tamil Nadu Government, through CMWSS Board has established a 45 MLD TTRO Plant at Koyambedu. The five industrial parks are now drawing about 15 MLD tertiary treated water, ensuring a sustainable water supply for industrial processes.

2) Desalination Plant

SIPCOT is in the process of establishing a 60 MLD Desalination Plant at Mullakkadu

Village, Thoothukudi to cater to the industrial water requirements at SIPCOT Industrial Parks in Thoothukudi. The plant will be established at a project cost of Rs.975.47 crore through Hybrid Annuity Model (HAM) with 40% contribution by SIPCOT and 60% by private participation.

2.6.3 Greenary Initiatives in Industrial Parks

As part of the Government's commitment to sustainable industrialisation, SIPCOT ensures adequate green cover development and well-maintained open space reservation areas by taking up several green initiatives. Based on the request by SIPCOT, the Forest Department of Tamil Nadu raises saplings in their nurseries and provides them to SIPCOT. On 20.12.2024, 1 lakh saplings were planted across all SIPCOT Industrial Parks led by the Hon'ble Minister for Industries. More than 7.50 lakh saplings have

been planted in the SIPCOT Industrial Parks so far since 2019.

2.6.4 Training and Incubation

1) SIPCOT Industrial Innovation Centre

To boost Industrial Revolution 4.0 in Tamil Nadu and further enhance productivity and competitiveness in the manufacturing sector, SIPCOT Industrial Innovation Centres (SIIC) have been established in the industrial parks at Hosur and Sriperumbudur, with an investment of Rs.33.46 crore. These centres are envisioned as world-class incubation hubs, designed to foster and accelerate industrial innovations and technology-driven startups. This initiative has been supported by a grant of Rs.14.20 crore from the Tamil Nadu Innovation Initiatives (TANII) scheme under the State Planning Commission of the Government of Tamil Nadu.

Each centre spans a built-up area of about 20,000 sq. ft., featuring co-working spaces for innovators and startups, state-of-the-art equipment, product development centres, prototyping facilities, and dedicated training spaces. Through these centres, SIPCOT aims to evaluate over 1,000 innovative ideas, develop more than 200 prototypes, and support the establishment of 30+ startups through to the seed investment stage. The facilities were inaugurated by the Hon'ble Chief Minister on 24.06.2022, and are operational through FORGE. Currently, 27 startups are utilizing the Hosur facility, and 22 startups are operational at the Sriperumbudur facility.

SIPCOT is also in the process of establishing an Innovation Centre in Madurai, with a project cost of Rs.24 crore.

2) Skill Development Centres

SIPCOT is developing a state-of-the-art Skill Development Centre in the SIPCOT Industrial Park at Shoolagiri, Krishnagiri District, at an estimated cost of Rs.80 crore. An MoU has been signed between SIPCOT and Nettur Technical Training Foundation (NTTF), who have been selected as the technology partner. The construction is nearing completion.

Also, Skill Development Centres are being planned at Mega Leather Footwear and Accessories Clusters (MLFAC) Panapakkam, EMC Manallur and Pillaipakkam which will have infrastructure for upskilling of the industrial workforce.

3) Naan Mudhalvan Initiatives

SIPCOT actively supports the Naan Mudhalvan Initiative, encouraging industrial park allottees to post job vacancies and

internship opportunities on the Naan Mudhalvan Portal. This platform serves as a vital link between employers and job seekers, benefiting both industries seeking talent and students / youth looking for career opportunities.

2.6.5 GIS Mapping and Geo Database

To ease investors in assessing industrial lands as per their requirements, a user-friendly GIS database of SIPCOT industrial parks has been created by using high-end technology including drone surveys, 3D imaging and remote sensing applications. The GIS database is linked with the allotment portal where investors can obtain information on the available lands and submit land applications in a hassle-free manner.

SIPCOT has developed a data repository portal that enables instant access to critical

documents and provides real-time status updates of ongoing land acquisition processes to achieve the target of 45,000 acres of land bank. As a pilot project, the geospatial representations of three industrial parks, covering approximately 3,500 acres are hosted on the portal.

2.6.6 BIZ Buddy Meet

To address the issues of investors in SIPCOT Industrial Parks, the BIZ Buddy Outreach Program has been introduced. The Hon'ble Minister for Industries conducted a SIPCOT BIZ Buddy Meeting on 24.02.2024 at SIPCOT Industrial Park, Gangaikondan to review the progress made in the works related to infrastructure development and address the grievances of industrial units in the Park. Since then, SIPCOT has been conducting BIZ Buddy meetings in all its Industrial Parks regularly on

the 2nd Friday of every month, with an officer deputed from the headquarters.

2.7 Nodal Agency for Structured Package of Assistance

The Government of Tamil Nadu has launched various industrial policies and offers incentives to companies under Structured Package of Assistance to attract large investments into the State. SIPCOT has been nominated as the nodal agency for disbursing the financial incentives sanctioned in the Structured Package of Assistance (SPA) to large industries. SIPCOT has so far disbursed Rs.20,098.30 crore to 65 industrial units under various incentive packages sanctioned by the Government of Tamil Nadu (up to 31.03.2025) as follows :

Sl. No.	Incentive	Amount Disbursed From 2008-09 to 2024-25 (Rs. in crore)
1	Soft Loan	2,699.26
2	Investment Promotion Subsidy (Including Clean Energy Vehicle Subsidy)	17,139.44
3	Capital Subsidy	46.33
4	Environmental Protection Infrastructure Subsidy	9.42
5	Training Subsidy	180.66
6	Reimbursement of Stamp Duty	18.35
7	Electricity Tax Refund	2.84
8	Industrial Infrastructure Park Subsidy	2.00
	Total	20,098.30

2.8 Financial performance

SIPCOT earned revenue of Rs.1,180.19 crore and made a profit of Rs.156.08 crore during the financial year 2023-2024. SIPCOT has been consistently distributing dividends to the Government of Tamil Nadu since 2005-2006. With

outstanding performance, SIPCOT contributed a dividend of Rs.60 crore (52.55%) to the Government of Tamil Nadu for the financial year 2023-2024.

Particulars	Financial Year 2023-24	Financial Year 2024-25 (Provisional)
	(Rs. in crore)	
Revenue from Operations	1,047.56	1,951.77
Other Income	132.63	95.52
Total	1,180.19	2,047.29
Net Profit	156.08	160.80
Dividend paid to the Government	60.00	40.00

3. TAMIL NADU INDUSTRIAL DEVELOPMENT CORPORATION LIMITED

Since its inception in 1965, Tamil Nadu Industrial Development Corporation Limited (TIDCO) has played a significant role in shaping Tamil Nadu's industrial landscape. TIDCO contributes immensely in accelerating industrial progress in the State by forging strategic partnerships, promoting joint ventures, and executing ambitious mega-infrastructure projects.

3.1 TIDCO : The Venture Catalyst of Tamil Nadu

TIDCO, the venture catalyst of the State, promotes industries across several domains through joint ventures with private companies and other State / Central PSUs. The following models are adopted by TIDCO based on specific project features.

- Support services: with no equity or equity participation up to 1%
- Associate sector: with equity participation between 2% and 11%

- Joint sector: with equity participation between 11% and 50%
- Subsidiary: with equity participation of 50% or above

TIDCO has so far promoted 130 joint ventures across multiple sectors such as manufacturing, IT & ITeS, aerospace & defence, mobility, chemicals & petrochemicals, life sciences, energy and others. These joint ventures have significantly contributed to the State in terms of economic and regional development, job creation, and industrial eco-system development.

A few of the prominent joint venture projects of TIDCO are :

Manufacture of goods • TITAN • JSW Steels Chemicals & Petrochemicals • TANFAC	IT & ITeS infrastructure • TIDEL Park • TIDEL Park, Coimbatore • Ascendas IT Park • DLF Info Park
--	---

• SPIC • Tamil Nadu Petro Products Floriculture • Tanflora Infrastructure Park Mobility, Transport & Logistics • Marine Infrastructure Developer Private Limited (Kattupalli Port). • Tamil Nadu Road Development Company • IT Expressway Limited	Life Sciences infrastructure • TICEL Bio Park, Chennai • TICEL Bio Park, Coimbatore General Industrial Infrastructure • Tamil Nadu Trade Promotion Organisation (Chennai Trade Centre) • Mahindra World City Oil & Gas • Indian Oil LNG Private Limited
--	---

3.2 Driving Multi-Sector Industrial Promotion and Growth

TIDCO has played a key role in enabling and promoting the growth of industries in Tamil Nadu. Some of the important projects and initiatives are listed below.

3.2.1 Transport, Mobility & Logistics Sector

1) Expansion and Modernisation of Airports

Tamil Nadu has six operational civilian airports viz., Chennai, Coimbatore, Tiruchirapalli, Madurai, Thoothukudi and Salem – the first four being international airports. Further, infrastructure works for a new airport in Vellore have been completed and operations will commence soon. These airports not only provide air connectivity to all regions of the State but also attract investments, boost exports and promote tourism thereby driving economic growth.

To augment infrastructure, increase flight operations and improve operational efficiency, Airports Authority of India (AAI) has taken up the expansion and modernization of airports. For this, land is of key importance and the Government of Tamil Nadu through the Industries, Investment Promotion and

Commerce Department acquires the lands for airport expansion and modernization. So far, 1,972.89 acres of patta lands have been acquired at a cost of Rs.2,938.03 crore and handed over to AAI and 335.08 acres of Government lands worth Rs.186.33 crore have been earmarked for the expansion and modernization projects. Also, 148.28 acre land is being acquired at a cost of Rs.350 crore for the expansion of Salem airport. Moreover, the Government of Tamil Nadu is also in the process of obtaining 315.36 acres of land valued at Rs.390.11 crore on providing Equal Value Land (EVL) to the Ministry of Defence for the expansion of the Coimbatore and Tiruchirappalli Airports.

2) Chennai Greenfield International Airport

The Government of Tamil Nadu is developing a Greenfield International Airport

in Paranthur near Chennai to meet the increasing passenger and cargo traffic demand in the region. TIDCO has been nominated as the nodal agency for the development of this project. The development of the airport has been planned in 4 phases to meet an ultimate capacity of 100 million passengers per annum (MPPA), with Phase 1 to handle 20 MPPA. Detailed Project Report for the project has been completed.

The Ministry of Civil Aviation has granted "Site Clearance" for the project in August 2024. The Ministry of Environment, Forest & Climate Change has approved the 'Terms of Reference' for granting environmental clearance on 31.07.2024. Preparation of the 'Environment Impact Assessment Report' is underway. "In Principle" approval for the project has been granted by the Ministry of Civil Aviation.

The Government issued orders in October 2023, granting administrative sanction for the acquisition and alienation of 5,746 acres in 20 villages of Kancheepuram and Sriperumbudur Taluks in Kancheepuram District. The process of land acquisition and alienation is under progress.

3) Greenfield Airport in Hosur

The Hon'ble Chief Minister has announced that an international airport with a capacity of 30 MPPA will be established on approximately 2,000 acres of land in Hosur, Krishnagiri District. For this, TIDCO identified five potential sites around Hosur and a team of officials from the Airport Authority of India (AAI) inspected the sites in September 2024 to study the feasibility of the sites. TIDCO will initiate further necessary action after receiving the feasibility report from AAI.

4) Greenfield Airport in Rameshwaram

With a view to boost tourist arrivals in South Tamil Nadu and to promote the overall development of the region, the Government of Tamil Nadu has decided to develop a new airport in the Rameshwaram area of the Ramanathapuram District.

5) Multimodal Logistics Parks

a) Chennai MMLP

TIDCO in association with National Highways Logistics Management Ltd (NHLML), Chennai Port Authority (ChPA) and Rail Vikas Nigam Limited (RVNL) is developing the Multi-Modal Logistics Park (MMLP) on 182 acres land in Mappedu Village, Tiruvallur District at an estimated cost of Rs.1,423 crore.

A Special Purpose Vehicle - Chennai MMLP Pvt. Ltd (CMPL) has been formed to

implement the Multi Modal Logistics Park project.

Shareholding Pattern

Sl. No.	Shareholder	Investment (in Rs. crore)	Equity Contribution (in %)
1.	CLPA	166.78	26.02
2.	RVNL	166.64	26.00
3.	NHLML	257.50	40.18
4.	TIDCO	50.00	7.80

A Memorandum of Understanding (MoU) was signed on 12.10.2021, between TIDCO, NHLML, and Chennai Port Authority in the presence of the Hon'ble Chief Minister. Reliance Industries has been selected as the concessionaire for the project. TIDCO is acquiring 88.22 acres of land for providing rail connectivity and 23.79 acres of land for developing a railway yard for this project. The development of Chennai MMLP will be

implemented in a phased manner and Phase 1 is expected to be completed by 2026.

b) Coimbatore MMLP

TIDCO in association with NHLML, VOC Port Authority (Thoothukudi), and RVNL is also developing a Multi-Modal Logistics Park in Coimbatore. An extent of 216.53 acres of land in Karavazhimathapur, Kaniyur and Rasipalayam villages, in Sulur Taluk, Coimbatore District has been identified for developing the project and TIDCO is in the process of acquiring these lands.

6) Tamil Nadu Logistics Policy and Integrated Logistics Plan, 2023

The Hon'ble Chief Minister unveiled the Tamil Nadu Logistics Policy & Integrated Logistics Plan 2023 on 18.03.2023. This policy emphasizes the promotion of a reliable, cost-efficient, and sustainable logistics framework in the State. The policy highlights

strategic focus areas including the establishment of a robust regulatory framework, advancement in integrated infrastructure, technological innovation, training, skill development, and encouraging private sector participation.

The State Integrated Logistics Plan (SILP) outlines 50 interventions / projects to be taken up in the logistics sector for the next 10 years with an initial investment outlay of Rs.63,000 crore for three priority freight corridors in the State. These projects will improve logistics efficiency and help in the creation of 1.60 lakh direct and indirect jobs in the State. These identified interventions and focus areas are important for the overall development of the logistics sector achieving the State's vision of becoming a \$1 trillion economy by 2030.

As a result of these strategic initiatives undertaken by the State Government, Tamil

Nadu has been recognized as an "Achiever" in the Coastal State group for the last three consecutive years -2022, 2023, and 2024 - in the LEADS (Logistic Ease Across Different States) Survey.

3.2.2 Fintech Sector

1) Fintech City

TIDCO is developing Phase 1 of Fintech City, spanning 56 acres in Nandambakkam, Alandur Taluk, Chennai, at a cost of Rs.82.87 crore to house domestic and international fintech companies and financial institutions. This hub will feature cutting-edge office spaces, social infrastructure and vibrant recreational zones, fostering innovation and collaboration. So far, two developed plots have been allotted to Axis Real Estate Commercial Fund and Muthoot Fincorp Ltd., through e-auction. Allotment of other plots to

potential BFSI and fintech companies is underway.

2) Fintech Tower

TIDCO is developing Fintech Tower, a state-of-the-art building, with a built-up area of 5.6 lakh sq. ft. at a cost of Rs.236.81 crore in Fintech City, Nandambakkam, Chennai. The Fintech Tower offers premium workspaces tailored for financial and fintech companies. The tower's design incorporates cutting-edge amenities, including meeting halls, creche, food court, gym, and an auditorium, creating an environment that nurtures creativity and productivity.

3.2.3 IT & ITeS Sector

1) TIDEL Park

TIDEL Park Ltd., a joint venture between TIDCO (25.80%) and ELCOT (5.91%), was established in the year 2000 under the

visionary leadership of former Chief Minister Muthamizh Arignar Dr.Kalaingar M Karunanidhi. This landmark event marked the beginning of Tamil Nadu's IT revolution.

TIDEL IT Park, Chennai, was built at an estimated cost of Rs.293 crore, spanning 8.01 acres with a built-up area of 12.80 lakh sq. ft. Over the years, TIDEL Park has emerged as a leading centre for the IT, ITeS, and BPO industries, housing over 40 companies and providing employment opportunities for more than 12,000 professionals.

2) TIDEL Park Coimbatore

TIDEL Park Coimbatore Limited (TPCL), a joint venture between TIDCO, ELCOT, TIDEL, and STPI was established in 2010 to drive IT infrastructure development in Coimbatore. The major stakeholders of TPCL include TIDCO (26.41%), ELCOT (33.05%), TIDEL (39.56%), and STPI (0.99%).

This park which is in ELCOT's Special Economic Zone in Coimbatore, spans 9.5 acres, with a built-up area of 17 lakh sq. ft. and leasable space of 9.14 lakh sq. ft. The park is home to nearly 85 IT/ITeS clients and includes a fully equipped, modern plug and play facility with 952 seats for housing SMEs and startups.

Prominent MNCs and corporates such as Accenture Solutions, IBM India, LTI Mindtree, Tech Mahindra, Cameron, Corrohealth, Value Momentum, and Omega Healthcare have established their presence at the park, generating employment for approximately 24,000 professionals. Exports from the IT park during April to December 2024 were approximately Rs.2,650 crore, underscoring its significant contribution to the IT sector and the regional economy.

3) TIDEL Park, Pattabiram

TIDEL Park Pattabiram, a G+21-storey IT hub, was inaugurated by the Hon'ble Chief Minister on 22.11.2024, marking a significant milestone in the region's development. Strategically located, this state-of-the-art IT park spans 11.41 acres with a built-up area of 5.57 lakh sq. ft. Designed to accommodate IT/ITeS companies, GCCs, BPOs, and startups, it is set to provide employment for 6,000 IT professionals, driving economic growth in the region.

This facility is equipped with a wide range of modern amenities and features, including a cafeteria, gym, multi-cuisine food court, multi-purpose hall, promotional area, 100% DG power backup, 24x7 surveillance, solar panels, fire protection system, integrated building management systems, water and sewage treatment, open car parking, indoor

games, meditation hall, EV charging stations, medical centre, and well-planned internal approach roads.

4) TIDEL Park, Madurai

TIDEL Park is set to develop an iconic IT park in Madurai city. The foundation stone for this IT project was laid by the Hon'ble Chief Minister on 18.02.2025. This Rs.314 crore project being developed on 9.6 acres will have a G+12 floor IT building with a built-up area of 5.34 lakh sq. ft. TIDEL Park, Madurai will generate around 6,000 jobs, driving employment and fostering economic growth in the region. The project is envisioned to provide state-of-the-art infrastructure tailored for Information Technology, Fin-tech companies, IT/ITES companies, startups, GCCs, and Business Process Management (BPM) firms.

5) TIDEL Park, Tiruchirappalli

TIDEL Park is developing a new IT park in Panjapur, Tiruchirappalli. The foundation stone for the project was laid by the Hon'ble Chief Minister on 18.02.2025. This park, with a project cost of Rs.403 crore is being established on 14.16 acres with a built-up area of 5.58 lakh sq. ft., comprising G+6 floors. It is designed to accommodate flexible tenant spaces and will offer several facilities, including co-working spaces, clinic, cafeteria, crèche, gym, multi-purpose hall and a range of modern amenities. The building is thoughtfully designed to provide state-of-the-art infrastructure for IT/ITeS, BPO's, GCC, and startups and the IT park will provide jobs for 6,000 IT professionals, playing a key role in driving the socio-economic growth of the region.

6) TIDEL Park in Hosur

To further expand the presence of the IT sector, the Government of Tamil Nadu has announced that a TIDEL Park with high-end office facilities will be developed in Hosur, covering an area of 5 lakh sq. ft. at a cost of Rs. 400 crore. It is expected that the facility would generate approximately 6,000 jobs to persons in the IT and allied sectors.

7) Mini TIDEL Parks

Building on the success of TIDEL Park, the Government of Tamil Nadu has decided to establish Mini IT parks by an SPV - TIDEL Neo - in Tier 2 and Tier 3 cities. These parks, offering 50,000 to 1 lakh sq. ft of space, are designed to foster growth, support startups, and create jobs for around 600 IT professionals at each location, contributing to the socio-economic development of these cities.

The Hon'ble Chief Minister inaugurated the first four Mini TIDEL Parks viz Villupuram on 17.02.2024, Thanjavur and Salem on 23.09.2024, and Thoothukudi on 29.12.2024. These mini TIDEL Parks have elicited tremendous responses from IT, ITeS, BPOs and Startups.

The construction of the Mini TIDEL Parks in Tiruppur, Vellore and Karaikudi are progressing well and will be ready for occupation shortly. The designing for Mini TIDEL parks in Tiruvannamalai, Namakkal and Karur are underway and construction work will commence soon.

Further in the Budget Speech 2025-26, it has been announced that a Mini TIDEL Park will be set up in Virudhunagar, generating employment for 600 people.

8) DLF Info Park at Taramani

TIDCO, in partnership with DLF Ltd., is developing a mega IT/ITES park in Taramani, Chennai. Spanning 27.05 acres, the park will have a built-up area of 6.8 million sq. ft. and is estimated to cost Rs.5,000 crore. Phase I of the park, covering 2.5 million sq. ft. developed at a cost of Rs.1,452 crore is fully operational.

On 14.03.2022, the Hon'ble Chief Minister laid the foundation stone for Phase 2 of this park. It is being developed with an investment of Rs.650 crore and will have a built-up area of 1.13 million sq.ft. This project which is nearing completion is expected to create over 70,000 jobs for IT/ITES professionals.

3.2.4 Life Sciences Sector

1) TICEL Bio Parks

TIDCO in association with TIDEL Park Ltd. created TICEL Bio Park Limited (TIDCO– 37.83% and TIDEL – 44.60%) to provide comprehensive infrastructure facilities to support biotechnology and pharmaceutical companies in Tamil Nadu.

TICEL Phase-1 was established in Taramani, Chennai in 2004 with a built-up area of 1.42 lakh sq.ft. on 5 acres of land at a cost of Rs.55 crore. Following its success, TICEL Phase-II was established on the same campus with a built-up area of 6.49 lakh sq. ft. at a cost of Rs.168 crore.

TICEL Phase-III was established in Coimbatore at a cost of Rs.85 crore with a built-up area of 2.29 lakh sq.ft. All three phases are operational and have been

successful in creating and supporting a vibrant biotech ecosystem in the State.

A common Biotechnology Core Instrumentation Facility (BTCIF) was set up jointly by TIDCO and the Department of Biotechnology, Government of India, in TICEL Phase-II, Chennai at a project cost of Rs.18.80 crore. BTCIF provides equipment facilities for high-end research, pilot-scale manufacturing and testing to startups, incubators and other industries.

TICEL Bio Park has also established the 'TICEL Innovation Hub' to foster biotechnology innovation, research and entrepreneurship. TICEL Bio Park has created incubation facilities with cubicles and co-working spaces at TICEL Chennai and Coimbatore which are utilized by 13 life-sciences startups. The hub has been benefitting more than 7,000 life-sciences

participants and the biotech ecosystem through a collaborative linkage model with academia, startups, industries and research institutes by conducting various workshops, seminars, certification programs, hackathons, internships, undertaking joint research proposals and incubation.

2) Golden Jubilee Biotech Park for Women

TIDCO played a key role in establishing the Golden Jubilee Biotech Park for Women on around 20 acres of land provided by the Government of Tamil Nadu at Siruseri in 2001, for fostering entrepreneurship among women in biotechnology. The park's BioNest bio-incubation facility, supported by BIRAC, Department of Biotechnology, has nurtured more than 28 Women Incubates and funded more than Rs.3.50 crore to various women-led startups. The park currently houses 25 Women-led Life Sciences companies. The

Park has won the 'The Best Incubator Award', having generated more than 400 direct employment, 10,000+ indirect employment, 31 grants to the tune of \$ 1.7 Million, 17 patents and 50 products, all accomplished by women entrepreneurs supported by the Biotech Park.

3.2.5 Aerospace & Defence Sector (A&D)

1) Tamil Nadu Defence Industrial Corridor (TNDIC)

TIDCO has been designated as the nodal agency for promoting the Aerospace and Defence sector in the State. TIDCO is responsible for implementing the 'Tamil Nadu Defence Industrial Corridor' (TNDIC), one of the two defence industrial corridors in India. The TNDIC project is being implemented across five nodes: Chennai, Tiruchirappalli, Coimbatore, Salem, and Hosur. As the lead agency, TIDCO is driving several initiatives to establish a robust ecosystem for Aerospace

and Defence manufacturing in Tamil Nadu. These initiatives are aimed at stimulating growth, fostering self-reliance, and supporting indigenization in this high-potential sector, which has been recognized by the Government of Tamil Nadu as a "sunrise sector" for development. A comprehensive strategy has been put in place for the development of TNDIC, along with various initiatives to further strengthen the sector.

a) Common Facility Centres (CFC)

MSMEs play a key role in the Aerospace & Defence (A&D) manufacturing sector and Tamil Nadu is home to top-class MSMEs who are Tier 1 and Tier 2 vendors to global A&D companies. To enhance the productivity of MSMEs and equip them with Industry 4.0 technologies, TIDCO is establishing Common Facility Centres (CFC). These centres will

provide an avenue for industries to utilize capital-intensive cutting-edge technologies and enable them to be part of the A&D supply chain.

i) Trichy Engineering and Technology Cluster (TREAT):

Trichy Engineering and Technology Cluster (TREAT) is a CFC for advanced fabrication and heavy machining that has been established with an investment of Rs.100 crore. TIDCO has infused an equity of Rs.10 crore in TREAT and is a major shareholder. TREAT is also supporting MSMEs in and around Trichy by taking bulk orders from Original Equipment Manufacturers (OEMs) like TATA projects.

ii) Post-Processing and Surface Treatment Facility

Post-processing and surface treatment facilities are key requirements for aerospace Industries. Considering the large number of A&D industries in Coimbatore, TIDCO has enabled a CFC at GTN Industries, for the post-processing needs of A&D industries.

iii) Tamil Nadu Engineering Innovation Centre (TN ENGINE)

TIDCO is setting up a Common Engineering Facility Centre at Coimbatore in collaboration with Tata Technologies Ltd with a project cost of Rs.400 crore. The foundation stone for Phase I of the project was laid by the Hon'ble Chief Minister on 21.08.2024. This is currently being developed at a cost of Rs.166.83 crore. The facility will be set up at Anna University Regional

campus, Coimbatore, on 5 acres of land with a built-up space of 20,000 sq. ft. This centre comprises a design & simulation lab, machining & sheet metal lab, generative engineering lab, and inspection & validation lab, will extend support to startups and MSMEs in aero design & development, industrial robotics, avionics, mechatronics and testing. Tamil Nadu Engineering Innovation Centre Limited (TN ENGINE), a 100% subsidiary of TIDCO, has been established to develop this centre.

b) Common Testing Centres

TIDCO is developing four advanced testing centres for the Aerospace & Defence industries under the Defence Testing Infrastructure Scheme (DTIS) of the Ministry of Defence (MoD), Government of India. These centres will provide state-of-the-art

facilities to support innovation and quality assurance in the sector.

i) Unmanned Aerial Systems (UAS) Testing Centre

TIDCO, in partnership with KELTRON, SIPL, STC, and AVISHKA, is setting up a Common Testing Centre for Unmanned Aerial Systems in Vallam Vadagal, Sriperumbudur, Chennai, at a project cost of Rs.45 crore. A Special Purpose Vehicle - Association for Drone Avionics Research & Testing (ADART) - was established to develop this centre. Construction and equipment procurement are currently underway and the centre is expected to commence operations soon.

ii) Electronic Warfare (EW) Testing Centre

TIDCO, in collaboration with Bharat Electronics Limited (BEL), Hindustan Aeronautics Limited (HAL), India Optel

Limited (IOL), and Bharat Dynamics Ltd. (BDL), is setting up a Common Testing Centre for Electronic Warfare systems at Vallam Vadagal, Sriperumbudur, Chennai, at a project cost of Rs.46.96 crore. A Special Purpose Vehicle - Electronic Warfare (Defence) Testing Foundation (EWDTF) - was established to develop this centre. Construction and equipment procurement are currently underway and the centre will be ready for use shortly.

iii) Electro Optics (EO) Testing Centre

TIDCO, in partnership with India Optel Limited (IOL), Armoured Vehicles Nigam Limited (AVNL), Bharat Electronics Limited (BEL), and Goa Shipyard Limited (GSL), is setting up an Electro Optics (EO) Testing Centre at Vallam Vadagal near Chennai, at a project cost of Rs.41.22 crore. A Special Purpose Vehicle - Laboratory for Electro

optical Navigation System (LENS) - was established for developing this centre and presently construction and equipment procurement activities have been undertaken for operationalising the centre.

iv) Mechanical and Material Testing Centre

TIDCO, in collaboration with Microlab, Bharat Earth Movers Ltd (BEML), Hindustan Aeronautics Ltd (HAL), and Vaideeswaran Industries, is setting up a common testing centre at Thuvakudy Industrial Estate, Tiruchirappalli, at a project cost of Rs.49 crore. A Special Purpose Vehicle - Systems Testing and Research for Advanced Materials (STREAM) - was established to develop this centre. Equipment procurement is under progress towards commencing operations of the centre.

2) Industrial Parks and Facilities

Several industrial parks for the Aerospace and Defence sectors are being developed in different parts of Tamil Nadu.

a) Aerospace & Defence Industrial Park, Sulur

TIDCO is creating an Aerospace Industrial Park near the Sulur Air Force Station, covering 200 acres. This park will focus on manufacturing and assembling advanced military and commercial platforms. It will also feature an MRO facility, supporting both military and civilian aircraft. The uniqueness of this park is that it will have access to an active runway at the Air Force Station, Sulur. Land acquisition and infrastructure development works are under progress.

b) Defence Component Manufacturing Park at Varapatti, Coimbatore

TIDCO and SIPCOT are jointly developing an industrial park for defence component manufacturing on 372 acres at Varapatti, Sulur Taluk of Coimbatore District. Allotment orders for 43 acres have been issued to 10 industries by the Hon'ble Chief Minister on 05.11.2024.

c) Aero Hub

Chennai Aerospace Park Ltd. is a Special Purpose Vehicle under TIDCO for developing the Aero Hub project - a cutting-edge infrastructure hub designed to foster incubation and innovation in the aerospace and defence sectors located in Sriperumbudur. This project is being developed at a cost of Rs.230 crore and will have modern infrastructure on 10.73 acres of land with a built-up area of 3.04 lakh sq.ft., which can

accommodate defence testing labs, defence technology companies, defence research labs, and engineering design centres. The construction work is nearing completion.

3.2.6 Research, Knowledge and Emerging Sectors

1) Tamil Nadu Knowledge City (TKC)

TIDCO is developing 'Tamil Nadu Knowledge City' on 870 acres of land in Sengathakulam and Melmaligaipattu villages in Uthukottai Taluk of Tiruvallur district with a mission to create a knowledge ecosystem where leading educational institutions and knowledge-driven industries merge, fostering the convergence of higher education, technology and research. Tamil Nadu Knowledge City will be a one-of-a-kind, higher education and research-focused greenfield city, attracting renowned international and national universities, research institutions,

and technologically advanced product and service companies across various sectors. The techno-economic feasibility report and the master plan for this state-of-the-art city have been completed. The plan includes well-defined educational and R&D zones, along with social and commercial infrastructure such as sports facilities, hospitality, residential, and retail areas. Discussions are currently underway with national, international universities and research organisations for establishment of their campuses in Knowledge City.

2) University Research Parks (URP)

University Research Parks (URPs) are collaborative ecosystems that bring together academia, industry, startups and the Government to foster innovation, research, intellectual property (IP) creation and entrepreneurship development. With good

infrastructure and common facilities like laboratories and centre of excellence across multiple domains, URPs will house R&D units, startups, incubators and accelerators.

As the nodal agency, TIDCO is spearheading the establishment of University Research Parks in Coimbatore and Madurai and steps are being taken for incorporation of the 'Tamil Nadu Research Park Foundation' as a Section 8 SPV company for managing all the URPs.

3) Tamil Nadu Emerging Sector Seed Fund (TNESSF)

TNESSF is a SEBI-registered Category-I Venture Capital Fund with a corpus of Rs.500 crore, sponsored by TIDCO and TIDEL and managed by TNIFMC. Through equity investments in high-potential startups across emerging sectors, TNESSF aims to promote 'Made in Tamil Nadu' companies while

fostering innovation, R&D, and entrepreneurship. The focus areas for TNESSF include Aerospace & Defence, DeepTech, Advanced Manufacturing, Robotics, E-Commerce, Mobility & Logistics, Agri & Food Processing, Life Sciences, EdTech, FinTech, and SpaceTech. Applications for TNESSF are referred through TIDCO, TNIFMC and StartupTN, shortlisted through a multi-step process, and selected by a professional investment committee. As of FY 2024, TIDCO has released Rs.10 crore towards TNESSF as the sponsor's share. The Hon'ble Chief Minister issued sanction orders totalling Rs.13.40 crore for the first five startups on 27.01.2023. As of March 2025, TNESSF has approved a total investment of Rs.51.60 crore in 13 startups.

3.2.7 Centres of Excellence

TIDCO has established three "Centres of Excellence (CoE) in Emerging Technologies in

Manufacturing.” These have been established as wholly owned subsidiaries of TIDCO, in partnership with global majors viz., Dassault Systèmes, GE Aviation and Siemens, at a total project cost of Rs.600 crore.

1) Tamil Nadu Centre for Advanced Manufacturing (TANCAM)

TANCAM has been established in association with Dassault Systèmes at a cost of about Rs.210 crore. This CoE was inaugurated by the Hon’ble Chief Minister on 24.06.2022. TANCAM caters to different industry segments like Aerospace & Defence, Automotive, and Electric Vehicles. TANCAM enables startups and MSMEs to leverage technology and innovation in business models by employing the 3D Experience platform. So far, 600 MSMEs and 200 startups have benefited from this CoE.

2) Tamil Nadu Smart and Advanced Manufacturing Centre (TANSAM)

TANSAM has been established in association with Siemens Industrial Software Ltd. at a cost of Rs.250 crore. This CoE was inaugurated by the Hon'ble Chief Minister on 08.11.2022. TANSAM provides services to large industrial units, MSMEs, and startups for innovation and product development. It specializes in seven areas:

- i) Product Innovation
- ii) Predictive Engineering Analytics
- iii) Smart Factory Research
- iv) Asset Performance Management Research
- v) Product Lifecycle Management Research
- vi) Innovative Manufacturing
- vii) AR/VR/MR Research & Skill Training

3) Tamil Nadu Advance Manufacturing Centre of Excellence (TAMCOE)

TAMCOE has been established in partnership with GE Aviation at a project cost of Rs.140 crore and was inaugurated by the

Hon'ble Chief Minister on 08.11.2022. TAMCOE facilitates technology development for aviation engine parts, medical device components, and automotive precision engineering. It offers design facilities for additive manufacturing, prototype development, and reverse & re-engineering services for various industrial domains.

3.2.8 Other Industrial Infrastructure interventions / initiatives

1) Chennai Trade Centre

Tamil Nadu Trade Promotion Organisation (TNTPO), a JV company of Tamilnadu Industrial Development Corporation (TIDCO) and India Trade Promotion Organization (ITPO), has developed the Chennai Trade Centre at Chennai. The Chennai Trade Centre was developed with an exhibition space of 1,13,666 sq.ft. and a convention centre with a seating capacity of 2,000 persons.

Subsequently, in order to host large-scale national and international events, the Chennai Trade Centre was expanded with a total built-up area of 9,66,659 sq.ft. at a cost of Rs.384 crore. The expanded facility comprises an exhibition area of 1,21,566 sq.ft., a convention centre of 40,221 sq.ft. with a seating capacity for 4,000 persons and a multilevel car parking having the capability to accommodate 1,306 cars. Additional facilities include Conference halls, VIP rooms, and a medical centre.

2) Plug and Play Manufacturing Facility – Vallam Vadagal

TIDEL Park is constructing a plug-and-play facility at Vallam Vadagal, at an estimated cost of Rs.45.37 crore. This initiative is designed to streamline industrial setup by reducing both time and capital expenditure for establishing manufacturing units. Spanning 11.74

acres, the facility will offer a leasable area of 1.25 lakh sq. ft. The building is in an advanced stage of construction. This facility will be operated on the Public-Private Partnership (PPP) model and the process to identify PPP partner is underway.

3) Industrial Housing Project in Krishnagiri District

TATA Electronics Private Limited (TEPL) is developing an affordable industrial housing project to accommodate the employees of TEPL. The project is being developed on an area of 64 acres at Nagamangalam village, Denkanikottai Taluk, Krishnagiri District.

TEPL in association with Tamil Nadu Industrial Development Corporation, and Tamil Nadu Shelter Fund (TNSF) formed an

SPV company - Vidiyal Residency Private Limited (VRPL) to execute this project.

The proposed Shareholding Pattern for the VRPL is as below :

Sl. No.	Name of the Shareholder	Investment (Rs. in crore)	Equity Contribution (in %)
1	TEPL	1.48	74
2	TNSF	0.30	15
3	TIDCO	0.22	11

The project is being implemented under the Affordable Rental Housing Complexes (ARHC) scheme, Government of India. Phase I of the project is being developed with 13 residential blocks designed to accommodate 10,400 persons. Out of these 13 residential blocks, 8 blocks are completed and are being occupied by women employees of TEPL and the remaining 5 blocks are under construction. This project also includes

support facilities such as dining areas, commercial zones and recreational areas.

4) Industrial Eco-system Fund (IEF)

The Government of Tamil Nadu has created an Industrial Eco-system Fund with a corpus of Rs.500 crore to support small infrastructure projects and eco-system creation. TIDCO, as the nodal agency, receives proposals from SIPCOT, TIDCO and Guidance for placing before the Empowered Committee for due appraisal and sanction of the amount from the Industrial Eco-system fund.

In the year 2024-25, six proposals for Industrial Eco-system Fund assistance, totaling Rs.129 crore, have been approved by the 5th Empowered Committee, and the implementing agencies have spent Rs.248.24 crore on various infrastructure projects.

3.2.9 Oil & Gas Sector

TIDCO is the nodal agency for the coordination and facilitation of various activities concerned with the implementation of the Petroleum & Natural Gas (PNG) pipeline and the City Gas Distribution (CGD) network project in the State.

1) City Gas Distribution (CGD) projects

Tamil Nadu became a pioneer by releasing the first of its kind Tamil Nadu City Gas Distribution Policy 2023, to streamline and fast-track implementation of Gas distribution projects in the state. This policy facilitates the seamless implementation of CGD infrastructure by the seven authorized CGD entities, with effective coordination by TIDCO.

To enhance the natural gas energy mix ratio from 6.70% to 15% by 2030, the Government of India has authorized 7 CGD

Companies to implement city gas distribution networks in all 38 districts of Tamil Nadu. This initiative is expected to attract an investment of Rs.35,000 crore and includes the establishment of 2,652 Compressed Natural Gas (CNG) retail outlets and the provision of 2.30 crore domestic Piped Natural Gas (PNG) connections to households over eight years.

As of March 2025, 380 CNG retail outlets covering major towns across various districts are in operation. The CGD entities have registered 1.43 lakh household connections and supply has been provided to 12,217 households through piped gas connections. Additionally, gas supply has been extended to around 12 industries.

2) Petroleum & Natural Gas Pipeline Projects

Major Trunk Pipeline projects are being implemented in Tamil Nadu to ensure a safe,

efficient, and uninterrupted supply of petroleum and natural gas to industries, commercial establishments and the domestic sector. These pipelines will also act as feeders to the City Gas Distribution (CGD) networks currently implemented across all districts in Tamil Nadu.

3.3 Financial Performance

TIDCO continued to showcase outstanding operational performance and robust financial health in 2024-25 :

Particulars	Financial Year 2023-24	Financial Year 2024-25 (Provisional)
	(Rs. in crore)	
Revenue from Operations	317.23	354.28

4. TAMIL NADU INDUSTRIAL INVESTMENT CORPORATION LIMITED

Tamil Nadu Industrial Investment Corporation Limited (TIIC) was established in 1949, to promote industrial activity in Tamil Nadu by providing need-based financial assistance to industries. Financial assistance is provided for purchase of land, construction of buildings, purchase and installation of machinery and working capital requirements. Nearly 90% of TIIC's assistance is provided to MSMEs. TIIC remains a preferred destination for first-generation entrepreneurs due to its unwavering support and guidance to them.

During the last 75 years, TIIC has provided financial assistance to more than 1,36,000 entrepreneurs, thus facilitating industrial development in the State. A cumulative loan assistance of Rs.26,535.57 crore has been extended by TIIC to 1,36,038 units as on

31.03.2025. TIIC has been earning profits continuously for the last 22 years since 2003-04. With the sustained support of the State Government and the continuous efforts of its employees, the Corporation has earned a Net Profit of Rs.109.83 crore (provisional) during the financial year 2024-25.

TIIC has positioned itself as the growth catalyst of MSMEs in the State by providing holistic assistance to MSMEs which has resulted in remarkable financial performance with the Corporation's Asset Under Management (AUM) of Rs.2,789.81 crore (provisional) during the financial year 2024-25.

The Corporation has been consistently declaring dividends from 2015-16 and has paid Rs.15.17 crore as dividends for the financial year 2023-24 to the Government of Tamil Nadu. The Interim Dividend of Rs.10.93 crore has been paid to the Government for the financial year 2024-25.

4.1 Asset under Management (AUM)

The Asset Under Management (AUM) of the Corporation stands at Rs.2,789.81 crore (provisional) as on 31.03.2025. The sector-wise exposure is as follows:

Sector	Exposure (%)
Engineering	19.51
Food Processing Industries	14.64
Electrical & Electronic	13.96
Plastics	13.61
Textiles	9.24
Stone Quarrying & Clay	7.06
Automobile	5.19
Paper & Paper Products	2.77
Chemical Products	2.15
Regd. Medical Practitioner	1.72
Rubber & Rubber Products	1.29
Miscellaneous	8.86

4.2 Financial Products

The maximum loan exposure for private / public limited companies is Rs.59 crore, for partnership / LLP firms is Rs.39 crore, and for proprietary / one-man company is Rs.31 crore. The Corporation is presently operating 15 schemes to meet the customized financial requirements of the entrepreneurs, some of which are below:

4.2.1 General Term Loan

Financial assistance is provided for the purchase of land, construction of buildings and purchase of machinery.

4.2.2 Machinery Finance Scheme

Credit facilities under this scheme are extended to profit-making units in existence for 3 years. Financial assistance is provided for the purchase of plant and machinery, for replacement of machinery, and expansion / diversification / modernization of the plant. The salient feature of

the scheme is lower promoter's contribution ranging from 0% to 15% and collateral norms of 25% of the loan amount.

4.2.3 Open Term Loan Scheme

Credit facility under this scheme is extended to existing customers of the Corporation with good track records for more than three years. The loan is mainly for the purchase of machinery and buildings. The maximum financial assistance under this scheme is Rs.2 crore.

4.2.4 Industrial Infrastructure Initiative Scheme

The purpose of financial assistance under the scheme is to purchase plots in SIPCOT or TANSIDCO industrial estates by MSMEs. This is in accordance with the MoUs signed by TIIC with SIPCOT and TANSIDCO.

4.2.5 Corporate Loan Scheme

Under the scheme, financial assistance is provided up to Rs.10 crore to MSMEs for funding

of tangible / intangible assets to meet their unanticipated investment / urgent expenditure needs. This facility is extended to MSME units that have been in existence for more than 5 years.

4.2.6 Privileged Customer Scheme

The credit facility under the scheme is extended only to existing customers of TIIC with good track records for over 3 years, to meet the immediate liquidity requirements and other business-related expenses. Under the scheme, no promoter's contribution is insisted upon. The maximum financial assistance under this scheme is Rs.2 crore.

4.2.7 Flexi Working Capital Term Loan

The purpose of the scheme is to extend financial assistance to manufacturing and processing units, to meet their working capital requirements. The maximum financial

assistance is Rs.1 crore for new units and Rs.4 crore for existing units.

4.2.8 Fintech Scheme

Financial assistance is extended to rated fintech NBFCs under this scheme. The maximum amount of financial assistance per entity is Rs.15 crore. The assistance is provided to the fintech companies exclusively for supporting MSMEs in Tamil Nadu.

4.2.9 Microfinancing Scheme

Under this scheme, financial assistance is extended to established and rated micro finance institutions (MFI), which in turn will provide financial assistance to micro-enterprises / self-help groups/ individuals, who are in organised and unorganised sectors. The maximum financial assistance per entity under this scheme is Rs.15 crore.

4.2.10 New Entrepreneur cum Enterprise Development Scheme (NEEDS)

This is one of the flagship self-employment schemes of the Government. Under this scheme, credit facilities are provided to aspiring educated youths to become first-generation entrepreneurs in manufacturing and service sectors. The salient features of the scheme include promoters' contributions ranging from 5% to 10%, a 25% capital subsidy on the project cost with an additional capital subsidy of 10% to SC/ST and differently abled persons, subject to a ceiling of Rs.75 lakh. Interest Subvention of 3% is also provided to the entrepreneurs. Loans of Rs.735.30 crore have been sanctioned to 1,154 first-generation entrepreneurs with a capital subsidy of Rs.87.21 crore till 31.03.2025.

4.2.11 Annal Ambedkar Business Champions Scheme (AABCS)

This is another flagship scheme of the Government of Tamil Nadu. Under the scheme,

financial assistance is provided to SC/ST entrepreneurs for establishing manufacturing and service enterprises. The State Government provides a capital subsidy of 35% of the project cost towards promoter's contribution of the applicant besides a 6% interest subvention upto 10 years.

4.2.12 Bill Financing Scheme

Bill Discounting facility is extended to registered suppliers/contractors of Greater Chennai Corporation, TANTRANSCO, TNPDC, CMWSSB, and TWAD against the works executed by the applicants for these Government agencies. Credit facility is extended up to Rs.59 crore per unit without collateral security. Further, TIIC has been onboarded onto the TN Trade Receivables Discounting System (TReDS) to tap the business opportunities available on this platform.

The financial assistance rendered by TIIC under the various schemes in 2024-25 is as below:

Sl. No.	Name of the Scheme	No. of units assisted	Amount of financial assistance (Rs. in crore)
1.	General Term Loan	249	604.41
2.	Machinery Finance Scheme	259	235.74
3.	Open Term Loan Scheme	66	51.80
4.	Industrial Infrastructure Initiative Scheme	54	99.71
5.	Corporate Loan Scheme	68	94.80
6.	Privileged Customer Scheme	240	150.93
7.	Flexi Working Capital Term Loan	85	58.65
8.	Fintech Scheme	1	5.00
9.	Microfinancing Scheme	2	16.00
10.	New Entrepreneur cum Enterprise Development Scheme (NEEDS)	43	48.99
11.	Annal Ambedkar Business Champions Scheme (AABCS)	7	10.12
12.	Bill Financing Scheme	60	420.02

4.3. Subsidy

TIIC is the nodal agency for disbursing various incentives offered by the State Government, towards promoting industries in Tamil Nadu.

4.3.1 Backward Area subsidy and Specific Thrust Sector Subsidy

Capital subsidy of 25% on plant & machinery cost is extended subject to a maximum of Rs.150 lakh for manufacturing units established in backward blocks, SIPCOT / SIDCO industrial estates, and for units manufacturing products under specified thrust sectors. The Corporation has disbursed Rs.43.32 crore as State capital subsidy to 243 beneficiaries during the financial year 2024-25.

4.3.2 5% Back Ended Interest Subsidy Scheme

The Government of Tamil Nadu extends a 5% back ended interest subsidy (BEIS) to micro and small enterprises undertaking technology upgradation / modernisation, as per the

guidelines issued for Credit Linked Capital Subsidy Scheme (CLCSS). The maximum amount of back ended interest subsidy under this scheme is Rs.25 lakh on loans sanctioned up to Rs.5 crore. The Corporation has so far disbursed Rs.5.20 crore as a 5% back ended interest subsidy to 218 beneficiaries, during the financial year 2024-25.

4.3.3 Interest subvention Scheme for MSMEs

To facilitate MSMEs to have access to cheaper credit for improving their financial viability, the Government of Tamil Nadu has been providing interest subvention since 2012-13. Since inception, TIIC has sanctioned term loans of Rs.4,332.84 crore to MSMEs and the Government has released Rs.259.91 crore towards interest subvention so far.

4.4 Financial Performance

For the financial year 2024-25, TIIC has sanctioned loans of Rs.1,829.77 crore, disbursed loans of Rs.1,628.90 crore. The Asset Under Management of the Corporation stands at Rs.2,789.81 crore (provisional) as on 31.03.2025 and the Corporation has earned net profit of Rs.109.83 crore (provisional) during the financial year 2024-25.

Particulars	Financial Year 2023-24	Financial Year 2024-25 (Provisional)
	(Rs. in crore)	
Revenue from Operations	329.39	295.00
Other Income	35.36	36.00
Total	364.75	331.00
Net Profit	129.37	109.83
Dividend paid to the Government	15.17	10.93

5. TAMIL NADU NEWSPRINT AND PAPERS LIMITED

The Government of Tamil Nadu established Tamil Nadu Newsprint and Papers Limited (TNPL) in 1979 to produce newsprint and printing & writing paper using bagasse as primary raw material. The TNPL Unit I factory is located at Pugalur in Karur district. The paper plant with machine capacity of 90,000 tonnes per annum was commissioned in the year 1985. The paper production capacity of the mill has been increased to 4,00,000 tonnes per annum through continuous expansions and process improvements at various stages.

In 2016, TNPL Unit II, a state-of-the-art plant for manufacturing multi-layer, double-coated boards has been set up with a capacity of 2,00,000 tonnes per annum at Mondipatti Village, Manapparai Taluk in Tiruchirappalli District.

Thus, TNPL has emerged as the third largest paper mill to produce printing & writing paper and

coated board in the country with a total capacity of 6,00,000 tonnes per annum. Simultaneously, the pulp production capacity (Unit I & II) has also been increased to meet the above production capacity (1,580 tonnes per day).

TNPL produces a wide variety of high-quality paper and coated boards suited for different end users. TNPL markets its products throughout the country and also exports about 20% of its production to over 66 countries across the globe. TNPL is the largest exporter of printing and writing paper in India.

5.1 Cement Plant

TNPL established a cement plant with a capacity of 2,97,000 MT per annum to produce cement from the mill's solid wastes viz., lime sludge and fly ash generated during paper manufacturing.

5.2 Raw Material Sourcing from Farmers

To meet the growing raw material requirement and to become self-reliant in pulp wood, TNPL has introduced two contract farming schemes namely farm forestry and captive plantation schemes. Under these schemes, TNPL has undertaken the implementation of pulp wood plantations with the participation of farmers. As of 31.03.2025, TNPL has developed 2,82,321 acres of pulp wood plantations involving 58,077 farmers throughout the State.

5.3 Power Generation

TNPL has become self-sufficient in power generation. It has captive power generation capacity of 103.62 MW in its paper mill complex and 50 MW in its Board Mill complex. TNPL has also installed wind farms with a capacity of 35.5 MW in Devarkulam and Perungudi, Tirunelveli District. The surplus power generated by TNPL Unit II is exported to the Indian Energy Exchange (IEX), and

the power generated by the wind farms is exported to Tamil Nadu Green Energy Corporation Limited.

5.4 Shareholding

The Government of Tamil Nadu holds 35.32% shares in the company, while State Government-owned companies hold 4.06% shares. The balance shares are held by Foreign Institutional Investors (FIIs), Indian Financial Institutions, Mutual funds, Insurance companies, corporate bodies, and general public.

5.5 Production and capacity utilization in 2024-25

Paper Production	4,25,165 Tonnes
Paper Capacity Utilization	106.29 %
Board Production	1,89,406 Tonnes
Board Capacity Utilization	94.70 %
Cement Production	1,77,256 Tonnes
Cement Capacity Utilization	59.68 %

Sales of paper, paper board and cement for the year ended on 31.03.2025 are 4,32,396

tonnes, 1,83,515 tonnes and 1,78,489 tonnes respectively.

5.6 Export

In 2024-25, the company has exported 1,00,884 tonnes of paper and 5,788 tonnes of board.

5.7 Employment

The company provides direct employment for about 3,000 employees and indirect employment for about 5,000 persons.

5.8 Projects

1) Revamp of Steam and Power System at TNPL Unit I

To have a reliable supply of utilities like steam and power for mill operations, the revamping of the existing steam and power system in Unit I has been taken up in phases. The installation of two high-pressure boilers is proposed to retire and replace the old low-pressure boilers installed since the mill's

inception in 1985. As part of Phase 1, procurement of one High-Pressure Boiler with ancillaries has been initiated at an estimated project cost of Rs.250 crore.

2) Rooftop Solar Panels at TNPL Unit I & II

In line with the commitment to the environment and renewable energy, 1 MW rooftop solar panels are under installation on buildings at both units. This project with an estimated cost of Rs.9 crore would contribute to our efforts to reduce our carbon footprint.

3) Tissue Paper Machine

TNPL envisages the installation of a 34,000 tonnes per annum (100 Tonnes per day) new tissue paper machine at Unit II located at Mondipatti Village, Manapparai Taluk, Tiruchirappalli District at an estimated project cost of Rs.340 crore. The machine shall have facilities to produce different grades of tissue paper ranging from 13 GSM to 40 GSM

mostly made from high-quality in-house hardwood pulp. The project will provide employment opportunities for about 150 people. The project material procurement work commenced in August 2024 and will be implemented soon.

5.9 Social Welfare Measures

The company spends 2% of the average net profit made during the three preceding financial years on Corporate Social Responsibility (CSR) activities. As part of CSR, TNPL undertakes regular social welfare measures such as conducting health camps, vocational training programs, development of infrastructure in the neighborhood, education and other activities. During 2024-25, the company has spent Rs.6.35 crore in this regard.

5.10 Corporate Environment Responsibility (CER)

TNPL has spent Rs.62.19 lakh on CER activities for various purposes like education,

health, social-economic development, environment, culture and heritage for the year 2024-25.

5.11 Financial Performance

The total revenue for the nine months ended on 31.12.2024 is Rs.3,194.51 crore, the loss before tax is Rs.25.54 crore and after tax is Rs.18.40 crore.

The company has paid its shareholders a dividend of 50% for the financial year 2022-23, and accordingly the company has paid a dividend of Rs.12.22 crore to the Government of Tamil Nadu. The company has also declared and paid dividends @ 40% (Interim 30% & final 10%) for the financial year 2023-2024. Accordingly, the company has paid a dividend of Rs.9.77 crore to the Government :

Particulars	Financial Year 2023-24	Financial Year 2024-25 (Nine months ended on 31.12.2024 - provisional)
	(Rs. in crore)	
Revenue from Operations	4,692.82	3,159.16
Other Income	68.98	35.35
Total	4,761.80	3,194.51
Net Profit	208.16	(18.40)
Dividend paid to the Government		Not declared
1. Interim dividend paid on 28.02.24	7.33	
2. Final dividend paid on 12.11.24	2.44	
	9.77	

5.12 Awards

TNPL has won the following awards in 2024-25 :

- 'Excellence in Corporate Communication Strategy Award' by Greentech Foundation.
- 'Certificate of Merit' at the National Energy Conservation Awards (NECA) 2024

- 'Energy Efficient Unit' and 'Most Useful Presentation' awards at the 25th CII National Award for Excellence in Energy Management.
- 'Golden Peacock Business Excellence Award' by the Institute of Directors (IOD).
- 'Best Technology Procurement of the Year' by Invention Business Intelligence.
- 'Great Place to Work certification' with a 96% Trust Index score, surpassing the industry and the top 100 companies' average of 91%.
- 'Best Corporate Communication Award' in Greentech Corporate Communications & Public Relations Award.
- 'Happiest Places to Thrive Award' in Happiness and Wellbeing Award.
- Winner in the Gold category at the 10th Annual Six Sigma Case Study Competition by NIQR.

- 'Golden Peacock Sustainability Award' from the Institute of Directors (IOD) at the Annual London Global Convention.
- Award for excellence in pollution control, waste management, and recycling at the Greentech PCWR Award
- 'OHSSAI HSE Excellence & ESG Global Award' for Safety Excellence
- 'Most Sustainable & Innovative Manufacturing Practices Award' by the World Manufacturing Congress.

6. TAMIL NADU CEMENTS CORPORATION LIMITED

Tamil Nadu Cements Corporation Limited was established on 11th February, 1976 as a wholly owned subsidiary of TIDCO. Consequent to the transfer of shares from TIDCO to the Government, TANCEM became a Government-owned Public Sector Undertaking from 31.12.1994. TANCEM owns 2 cement plants in Ariyalur with 1 MTPA and 0.5 MTPA production capacity respectively, and a 0.2 MTPA plant at Alangulam, Virdhunagar.

TANCEM sells cement in the open market at a reasonable price and also is a primary supplier to the District Rural Development Agency (DRDA) Department and other Government agencies for development schemes. Thereby TANCEM plays a vital role in ensuring fair price in the market. TANCEM also functions as the State Nodal Agency for the Amma Cement Supply Scheme.

TANCEM has obtained ISO 9001:2015 (Quality Management System) Certification, ISO 14001:2015 (Environmental Management System), and ISO 45001:2018 (Occupational Health and Safety Management System) certification.

TANCEM provides significant employment in the backward districts of Ariyalur and Virudhunagar. Currently, 918 persons are under direct employment and 3,000 persons are being benefited through indirect employment.

TANCEM sells cement under two brand names viz., 'Arasu' and 'Valimai' which is a premium brand launched by the Hon'ble Chief Minister on 16.11.2021.

6.1. Cement Supply to Government Departments

TANCEM supplies cement to the District Rural Development Agency and other Government Departments to support various development

schemes implemented by the Union and State Governments. The cement is provided at rates fixed by the Government, ensuring affordability and enabling the efficient execution of public infrastructure projects.

6.2. Open Market Sales

In addition to supplying cement to Government Departments, TANCEM plays a pivotal role in stabilizing cement prices in the open market. By offering cement at reasonable prices compared to private manufacturers, TANCEM ensures affordability for the general public while maintaining a steady supply to meet market demand.

6.3. Amma Cement Supply Scheme

The Amma Cement Supply Scheme was introduced on 05.01.2015 to provide cement at the concessional rate to the general public. Under this scheme, cement is being procured from seven designated private cement manufacturers and sold at the rate of Rs.216/- per bag with effect from

11.12.2020 through 501 godowns. Under the scheme, a maximum of 750 bags is given at the rate of 50 bags per 100 sq.ft., subject to a maximum of 1,500 sq.ft. of construction in respect of the new house. The annual income of the beneficiary should be less than Rs.3 lakh per annum. For repair & maintenance works, beneficiaries are eligible to receive 10 to 25 bags. Totally, 58,14,474.65 MT of cement (11,62,89,493 bags) have been sold under the Amma Cement Supply Scheme till 31.03.2025.

6.4. Limestone Mines

Limestone is the major raw material for cement manufacturing. TANCEM operates limestone mines at Ariyalur in Ariyalur District and Alangulam in Virudhunagar District.

6.4.1 Alangulam Cement Unit Limestone Mines

TANCEM possesses five limestone mining leases at Alangulam Cement Unit granted by the

Government over an extent of 901.76 hectares with an estimated reserve of 31 million tonnes. Environmental Clearance for Pandapuli Limestone Mines has been obtained and is in the process of obtaining EC for the remaining mining leases.

6.4.2 Ariyalur Cement Unit Limestone Mines

TANCEM possesses eight limestone mining leases at Ariyalur Cement Unit granted by the Government over an extent of 703.79 hectares. The usable mining reserves are 55.168 million tonnes as per approved mining plans, which will increase the life of the Ariyalur Cement Plant. TANCEM has obtained Environmental Clearance for seven limestone mining leases and is in the process of obtaining environmental clearance for the remaining one mining lease.

6.5 Initiatives undertaken during 2024-25

- Constructed four classrooms including Biology and Physics laboratories in Arasu

Nagar Matric Higher Secondary School (AMHSS) at Ariyalur Cement Unit at a cost of Rs.1.37 crore.

- Constructed a 3,400-meter-long compound wall around the factory campus at the Ariyalur Cement Unit, with a cost of Rs.4.60 crore.
- Installed fencing around the mining lease boundary (Anandavadi and Kallankurichi Limestone Mines) and CCTV cameras at Ariyalur Cement Works, with a cost of Rs.2.35 crore.
- Erected barbed wire fencing in the mining lease area at Alangulam and Pandapuli Limestone Mines, with a cost of Rs.2.23 crore.

6.6. Installation of M-Sand Plant

During the Budget session 2024-25, it was announced that TANCEM would establish an M-Sand manufacturing plant with a capacity of 500

MT per hour at an estimated cost of Rs.25 crore. The plant will utilize approximately 2.4 crore MT of mining waste from the Alangulam mines to produce M-Sand for the construction industry. Measures are being taken to prepare DPR and obtainin environmental clearance for establishing the plant.

6.7 Performance in 2024-25

UNITS	2023-24			2024-25 (Provisional upto February 2025)		
	Production (in MT)	Sales (In MT)	Profit / Loss (Rs. in Lakhs)	Production (in MT)	Sales (In MT)	Profit/ (Loss) (Rs.in Lakhs)
Ariyalur Cement Works - Old	2,85,465	2,87,728	(446.41)	-	-	-
Ariyalur Cement Works - New	7,72,900	7,72,131	2,874.13	8,78,413	8,75,382	(1,848.30)
Alangulam Cement Works	2,36,360	2,34,943	(1,353.45)	1,01,010	1,02,885	(1,315.79)
Amma Cement (Procure ment)	1,51,429	1,49,832	(151.47)	25,811	28,651	(91.69)
Asbestos Sheet	-	-	18.48	-	-	(5.77)
Stoneware Pipes	-	-	(34.38)	-	-	(18.29)
DRDA	-	-	(74.09)	-	-	-
TOTAL	14,46,154	14,44,634	832.81	10,05,234	10,06,918	(3,279.84)

During 2024-25, TANCEM produced 9.79 lakh MT cement. The total sales were 10.07 lakh MT, out of which 6,07,967 MT was supplied to Government Departments and 3,70,300 MT was sold in the open market up to 31.03.2025.

7. TAMIL NADU SALT CORPORATION LIMITED

Tamil Nadu Salt Corporation Limited (TNSC) was established in the year 1974 to provide employment and improve the socio-economic conditions of the people in Ramanathapuram District. For this, the State Government allotted 5,236 acres of land in Valinokkam and surrounding villages of Kadaladi Taluk. Commercial production of salt commenced in 1976. The main functions of TNSC are manufacturing and marketing of salt and by-products at a reasonable price. The products include industrial-grade salt, iodised salt and double fortified salt.

7.1 Activities of the Corporation

7.1.1 Harvesting of Salt

TNSC is engaged in harvesting salt from the salt pans under its possession in Valinokkam, Ramanathapuram District. In order to increase the salt production, semi-mechanization was

introduced in the year 2020-21. Initially, 30 acres were taken for semi-mechanization. As per the Assembly announcement made during 2021-22, an additional 80 acres have been taken up for semi-mechanized production in Valinokkam. TNSC has produced a total of 24,369 MT of salt through semi-mechanization during 2024-25 in the Valinokkam project.

7.1.2 Production of Salt

1) Production of Industrial Grade Salt

TNSC produces around 1.50 lakh MT of salt per annum at Mariyur Valinokkam Salt Complex, Ramanathapuram District and supplies around 70% of the salt produced to chlor-alkali industries. The balance of 30% of the produced salt is converted into value-added products like iodised salt and double fortified salt, which are supplied to PDS and the noon meal scheme. During the year 2024-25, 1,17,867 MT of salt was produced.

The State Government has also allotted 3,010 acres land in Thiruporur Taluk, Chengalpattu District in 2019 on a long-term lease for salt production.

2) Production of Iodized and Fortified Salt for PDS and child nutrition

TNSC produces edible salt like crystal iodized salt, refined free flow iodized salt and double fortified salt. The iodized salt produced conforms to IS 7224:2006 and is distributed through PDS at an affordable price. TNSC has been playing an active role in the "Universal Iodisation of Salt Programme" of the World Health Organization. From 1998-99 to 2024-25, TNSC produced and distributed 8,22,160 MT of iodised salt. During 2024-25, 19,899 MT of iodized salt has been supplied through PDS.

The double fortified salt i.e., salt fortified with iron and iodine is supplied to noon meal

centers of Government schools and Anganwadis to reduce iron and iodine deficiency in children. During the year 2024-25, 2,040 MT double fortified salt was supplied to the Noon Meal Programme.

3) Production of Iodised Salt for market sales

TNSC sells crystal iodised salt and refined free-flow iodised salt in the open market under the brand name "Neithal Salt". TNSC has appointed dealers in Chennai and other districts and commenced the sale of Neithal Salt in the open market. Continuous efforts are being made to promote Neithal Salt through sales representatives appointed in all districts. Neithal Salt is also sold through co-operative outlets like Amutham. TNSC has so far sold 636 MT of Neithal salt in the open market.

7.1.3 Operation of Salt Refinery

A new salt refinery was established at Valinokkam, Ramanathapuram District with CSR funds from Tata Trust in the year 2017. TNSC has produced 5,947 MT of refined free-flow iodised salt and double fortified salt from this plant during 2024-25.

7.2. Credentials of TNSC

TNSC is an ISO 9001:2015 certified organization. It has necessary quality certifications for the production of iodised salt and double fortified salt as per BIS, namely IS 7224:2006 and IS 16232:2014. A license from the Food Safety and Standards Authority of India (FSSAI) for the quality production of iodised salt and double fortified salt has also been obtained.

7.3. Employment Opportunities and Workers Welfare

TNSC provides employment opportunities which benefits around 1,250 workers directly and

500 people indirectly in the villages around Valinokkam, Ramanthapuram District. TNSC extends welfare / basic amenities to workers engaged in the salt production as follows,

- Minimum wages, Bonus and Dearness Allowance announced by the Government
- Statutory benefits like leave wages, gratuity, EPF, etc.
- Compensation of Rs.1 lakh to the nominee of the deceased worker in the event of unfortunate death during the working period
- Safety items like sun goggles, gumboots and towels
- Periodical medical camps
- Protected drinking water and toilet facilities.

7.4. State level nodal agency for Salt production

The Government has nominated TNSC as a coordinating / nodal agency for salt production related issues. Annual production of salt in Tamil

Nadu is around 24 lakh MT which takes place in 9 coastal districts. More than 4,100 salt producers are engaged in the State including small, medium and large-scale producers. More than 48,000 acres of Government and private land are used for the production of salt in the State.

7.5. Scheme for providing financial assistance to the salt workers families during the rainy season

The Salt Industry is seasonal in nature. Salt workers get work for only 9 months during the year. The Hon'ble Minister for Industries announced in the Assembly that Government will provide financial assistance of Rs.5,000 per annum during the rainy season from October to December to the salt workers' families, who have registered in the Tamil Nadu Manual Workers Social Security and Welfare Board.

The Hon'ble Chief Minister launched the scheme on 12.08.2022. The relief assistance of Rs.5,000 per salt workers' family provided during the past four years is as follows :

Financial Year	No. of salt workers' families	Amount disbursed (Rs. in crore)
2021-22	6,472	3.24
2022-23	6,332	3.17
2023-24	8,478	4.24
2024-25	11,329	5.67
Total	32,611	16.32

7.6. Financial Performance

TNSC made a sales turnover of 1,38,530 MT of salt yielding a revenue of Rs.38.35 crore during the year 2024-25 (Tentative).

Particulars	Financial Year 2023-24	Financial Year 2024-25 (Provisional)
	(Rs. in crore)	
Revenue from Operations	39.72	38.35
Other Income	0.70	0.26
Total	40.42	38.61
Net Profit	3.89	2.57
Dividend paid to the Government	1.13	Yet to be declared

Conclusion

Tamil Nadu's industrial and economic growth story continues to evolve, driven by a strategic vision for the future. As the State marches towards its ambitious goal of a \$1 trillion economy, it does so with the same pioneering spirit that transformed the region into an industrial powerhouse. The year 2025-26 will witness sustained efforts to attract investments across diverse sectors, fostering innovation and creating systematic collaborations between Government, industries, and academia. To position itself as a premier investment destination, the State will undertake investment promotion activities through global roadshows, investor summits, and sector-specific outreach programs. Tailor-made incentive packages will continue to be offered for projects striving to enhance global value chains and sectoral policy enhancements will also be prioritized to ensure targeted support for upcoming industries.

The State's focus will remain steady on balanced regional development, with special attention to empowering tier 2 & 3 cities by establishing plug-and-play facilities, industrial parks, working women hostels, and enhanced connectivity. Compliance reduction strategies will be a key priority, with the Tamil Nadu Single Window Portal expanding its services to provide faster approvals and clearances. In line with its commitment to sustainability, the State will scale up circular economy practices and promote renewable energy adoption to align with global environmental standards.

The State shall continue to leverage its rich legacy and strategic vision to position itself as a global hub for high-value manufacturing. Backed by strong governance, progressive policies and a skilled workforce, the State is well-poised to be the epicenter of India's industrial transformation.

Dr. T.R.B. RAJAA
